AUTHOR INDEX

(Page numbers marked with an asterisk refer to abstracts)

A

Abboud, François M., and **Eckstein, John W.** Effect of reserpine on vascular responses of forearm to tyramine and norepinephrine in man *1340
—. See Eckstein, Abboud and Pereda 1578
Abelmann, Walter H. See Duke and Abelmann *1355
Abraham, S. See Bortz, Abraham, Chaikoff and Dozier 860
Abramow, Maurice. See Corvilain and Abramow 1230
Adams, Richard W. See Bedell and Adams 1908
Adel, Harold, Daly, Marie M., Deming, Quentin B., Brun, Lili, and **Raeff, Victoria.** Effect of hypertension on cholesterol synthesis in rats *1340
Adhikari, P. K. See Lewis, Adhikari, Boushy and Sakamoto *1379
Adler, M. See Gutman, Yü, Adler and Javitt 623
Afonso, Skoda. See Rowe and Afonso *1395
Afzelius, Bjorn. See Luft, Ikkos, Palmieri, Ernster and Afzelius 1776
Aggeler, Paul M. See O'Reilly, Aggeler and Leong *1390
Aisenberg, Alan C. Studies on delayed hypersensitivity in Hodgkin's disease 1964
Alexander, Benjamin. See Colman and Alexander *1351
Alkalay, Israel See Stein, Alkalay and Bruderman *1402
Alkjaersig, Norma, Fletcher, Anthony P., and **Sherry, Sol.** Pathogenesis of the coagulation defect developing during pathological plasma proteolytic ("fibrinolytic") states. II. The significance, mechanism and consequences of defective fibrin polymerization 917
—. See Bang, Fletcher, Alkjaersig and Sherry 935
—. See Fletcher, Alkjaersig and Sherry 896
Allen, David W., and **Zamecnik, Paul C.** The mechanism of puromycin inhibition of hemoglobin synthesis by rabbit reticulocyte ribosomes *1340
Allison, Anthony C. See Blumberg, Bernanke and Allison 1936
Almy, Thomas See Lipkin, Almy and Bell 1831
Alter, Aaron A., Lee, Stanley L., Pourfar, Mohamed, and **Dobkin, Gerald.** Leukocyte alkaline phosphatase in mongolism; a possible chromosome marker *1341
Amarasingham, C. R., Green, G. M., and **Stuart, K. L.** Functional differences in lactic dehydrogenase activity as a metabolic basis for cell survival during hypoxia *1341
Amarasingham, Raghavan. See Lefemine, Amarasingham, Harken, Berkovitz and Lown *1378
—. See Lown, Amarasingham, Neuman and Berkovitz *1381
Amatruda, Thomas T., Jr., Chase, Joan W., and **Engel, Frank L.** The role of the endocrine glands in ketosis. II. Ketonemia following insulin hypoglycemia 758
Ames, Richard P. See Laragh, Cannon, Ames, Sicinski, Bentzel and Meltzer *1375
Anderson, J. B. See Freinkel, Singer, Silbert and Anderson *1359
Andreassen, Mogens. See Tygstrup, Winkler, Mellemgaard and Andreassen 447
Andreoli, Mario, and **Robbins, Jacob.** Serum proteins and thyroxine-protein interaction in early human fetuses. 1070
Andres, Reubin, Baltzan, Marcel A., Cader, Gordon, and **Zierler, Kenneth L.** Effect of insulin on carbohydrate metabolism and on potassium in the forearm of man 108
—. See Baltzan, Andres, Cader and Zierler 116
Arborelius, Måns, Jr., Ekwall, Bertil, Jernérus, Ragnar, Lundin, Gunnar, and **Svanberg, Lawe.** Unilateral provoked bronchial asthma in man 1236
Archer, Olga K. See Good, Martinez, Archer and Papermaster *1361
Arias, Irwin M. Chronic unconjugated hyperbilirubinemia (CUH) with increased production of bile pigment not derived from the hemoglobin of mature, circulating erythrocytes *1341
—. Chronic unconjugated hyperbilirubinemia without overt signs of hemolysis in adolescents and adults 2233
Arimura, Akira. See Dingman, Arimura, Peterson and Heath *1354
Arons, Walter L. Metabolism of levo- and dextro-isomers of thyroid hormones in man *1342
Ashton, Doris M. See Jones, Ashton and Wyngaarden 1805
Aster, Richard H. See Shulman, Aster, Pearson and Hiller 1059
Athens, John W., Haab, Otto P., Raab, Spencer O., Boggs, Dane R., Cartwright, George E., and **Wintrobe, Maxwell M.** The mechanism of steroid granulocytosis *1342
Athos, William J., Fineberg, Edwin, McHugh, Burton, and **Hilton, James G.** Adrenomedullary effects of guanethidine *1342
Atkins, E. Lawrence, and **Schwartz, William B.** Factors governing correction of the alkalosis associated with potassium deficiency; the critical role of chloride in the recovery process 218
Atkins, Elisha. See Bodel and Atkins *1346
Avigan, Joel. See Goodman, Avigan and Wilson 962
Ayers, Carlos R., Davis, James O., Lieberman, Ferol, Carpenter, Charles C. J., and **Berman, Mones.** The effects of chronic hepatic venous congestion on the metabolism of *d,l*-aldosterone and *d*-aldosterone 884
—. See David, Hartroft, Titus, Carpenter, Ayers and Spiegel 378

B

Bailey, Rita M. See Kilo, Long, Bailey, Koch and Recant *1372
Baldini, M. See Uathavikul and Baldini *1405
Baldridge, Eugene T. See Haverback, Baldridge and Dyce *1364

Baldwin, David S. See GOMBOS, HULET, BOPP, GOLDRING, BALDWIN and CHASIS 203
Ball, Michael F. See BLACKARD, BALL and ENGEL 1288
Ball, W. C., Jr., Stewart, P. B., Newsham, L. G. S., and **Bates, D. V.** Regional pulmonary function studied with xenon^{133} 519
Ballard, Harold S. See MARCUS, ULLMAN, SAFIER and BALLARD 2198
Baltzan, Marcel A., Andres, Reubin, Cader, Gordon, and **Zierler, Kenneth L.** Heterogeneity of forearm metabolism with special reference to free fatty acids 116
—. See ANDRES, BALTZAN, CADER and ZIERLER 108
Bang, Nils U., Fletcher, Anthony P., Alkjaersig, Norma, and **Sherry, Sol.** Pathogenesis of the coagulation defect developing during pathological plasma proteolytic ("fibrinolytic") states. III. Demonstration of abnormal clot structure by electron microscopy 935
Barakat, Russel M., and **Ingbar, Sidney H.** Induction of acute iodine depletion and the response thereto in normal subjects and in patients with Graves' disease *1343
Barker, S. B. See PITTMAN and BARKER 696
Barnett, Thomas B., and **Peters, Richard M.** Studies on the mechanism of oxygen-induced hypoventilation. An experimental approach 335
Bartlett, Grant R. See SHAFER and BARTLETT 690
Bartter, Frederic C. See GILL, GANN and BARTTER 1078
—. See HENKIN, GILL, BARTTER and SOLOMON *1364
—. See KAPLAN and BARTTER 715
Bashour, F. A., and **Khalaf, J. D.** Characteristics and performance of the left ventricle in massive mitral insufficiency *1343
Bass, Berl G. See GOLDRING, TURINO, COHEN, JAMESON, BASS and FISHMAN 1211
Bates, D. V. See BALL, STEWART, NEWSHAM and BATES 519
Battersby, E. J., and **Newman, Elliot V.** Analog computer extrapolation of indicator dilution curves *1343
Baulieu, Etienne-Emile. See MAUVAIS-JARVIS and BAULIEU 1690
Bayless, Theodore M., Yardley, John H., Norton, James H., and **Hendrix, Thomas R.** Adult celiac disease; rapid sequential changes in jejunal mucosa with alterations of dietary gluten *1344
Bearn, Alexander G. See VESELL, OSTERLAND, BEARN and KUNKEL 2012
Beck, J. C. See LEZNOFF, FISHMAN, TALBOT, MCGARRY, BECK and ROSE 1720
Bedell, George N., and **Adams, Richard W.** Pulmonary diffusing capacity during rest and exercise. A study of normal persons and persons with atrial septal defect, pregnancy, and pulmonary disease 1908
Beeken, Warren L., Volwiler, Wade, Goldsworthy, Patrick D., Garby, Lars E., Reynolds, William E., Stogsdill, Rose, and **Stemler, Richard S.** Studies of I^{131} albumin catabolism and distribution in normal young male adults 1312
Behnke, A. R., Jr. See BOLING, TAYLOR, ENTENMAN and BEHNKE 1840
Behnke, Roy H. See DALY and BEHNKE *1353
—. See STEINER, HSU, OLINER and BEHNKE 2221
Beierwaltes, William H. See CARR, PATNO and BEIERWALTES *1349
Bell, Bertrand M. See LIPKIN, ALMY and BELL 1831
—. See LIPKIN, SHERLOCK and BELL *1380
Bentzel, Carl J. See LARAGH, CANNON, AMES, SICINSKI, BENTZEL and MELTZER *1375
Bergofsky, E. H., Jacobson, J. H. II, and **Fishman, A. P.** The use of lymph for the measurement of gas tensions in interstitial fluid and tissues 1971
—, **Lehr, David E.,** and **Fishman, Alfred P.** The effect of changes in hydrogen ion concentration on the pulmonary circulation 1492
Berkovitz, Barough. See LEFEMINE, AMARASINGHAM, HARKEN, BERKOVITZ and LOWN *1378
—. See LOWN, AMARISINGHAM, NEUMAN and BERKOVITZ *1381
Berman, Mones. See AYERS, DAVIS, LIEBERMAN, CARPENTER and BERMAN 884
—. See BURG, BERMAN and ORLOFF *1349
Bernanke, David. See BLUMBERG, BERNANKE and ALLISON 1936
Bernstein, Howard. See SEGAL and BERNSTEIN *1399
Bertino, J. R., Fink, M. E., and **Calabresi, P.** The "induction" of dihydrofolic reductase activity in erythrocytes and leukocytes of subjects treated with amethopterin *1344
Bezman, A., Nestel, P. J., Felts, J. M., Havel, R. J., and **French, S.** The effect of ethanol-induced fatty liver on the transport of triglyceride fatty acids from liver to plasma *1344
—. See NESTEL, HAVEL and BEZMAN 1915
Biber, Thomas. See BRICKER and BIBER *1348
Bierman, Edwin L., Gordis, Enoch, and **Hamlin, James T. III.** Heterogeneity of fat particles in plasma during alimentary lipemia 2254
—, **Gordis, Enoch,** and **Hamlin, James T. III.** The heterogeneity of particulate fat in plasma *1345
Biglieri, Edward G., McIlroy, Malcolm B., Naimark, Arnold, and **Forsham, Peter H.** Altered autonomic nervous system and renal responses in primary aldosteronism *1345
Bing, R. J. See WOLF, CHIBA, RAMOS, SCHOLLMEYER and BING *1413
Biron, P. See GENEST, BIRON, CHRÉTIEN, BOUCHER and KOIW *1360
Blackard, William G., Ball, Michael F., and **Engel, Frank L.** Some hormonal, metabolic and nutritional factors influencing lipid peroxidation by rat adipose tissue *in vitro* 1288
Blair-West, J R., Coghlan, J. P., Denton, D. A., Goding, J. R., Munro, J. A., Peterson, R. E., and **Wintour, Marelyn.** Humoral stimulation of adrenal cortical secretion 1606
Block, Jerome B., and **Rall, David P.** Measurements of leukocyte intracellular pH in chronic myelocytic leukemia *1345
Blumberg, Baruch, Bernanke, David, and **Allison, Anthony C.** A human lipoprotein polymorphism 1936
Bodel, Phyllis, and **Atkins, Elisha.** Hypersensitivity to staphylococcal filtrates producing fever in rabbits *1346
Bogdonoff, Morton D. See FRIEDBERG, BOGDONOFF, ESTES, SHER and JACKSON *1359
Boggs, Dane R. See ATHENS, HAAB, RAAB, BOGGS, CARTWRIGHT and WINTROBE *1342
Boling, E. A., Taylor, W. L., Entenman, C., and **Behnke, A. R., Jr.** Total exchangeable potassium

and chloride and total body water in healthy men of varying fat content 1840
Bollet, Alfred Jay. See Davis and Bollet 2142
Bollman, Jesse L. See Schoenfield, Bollman and Hoffman 133
Bondurant, Stuart. See Daly and Bondurant 126
Bongiovanni, Alfred M. The adrenogenital syndrome with deficiency of 3β-hydroxysteroid dehydrogenase 2086
—, and **Clark, Albert.** Urinary Δ-5-pregnene-3β,17α,-20α,21-tetrol in 3β-ol-dehydrogenase deficiency *1346
Bopp, Pierre. See Gombos, Hulet, Bopp, Goldring, Baldwin and Chasis 203
Borkowski, Abraham J., Marks, Paul A., Katz, Fred H., Lipman, Marvin M., and **Christy, Nicholas P.** An abnormal pathway of steroid metabolism in patients with glucose-6-phosphate dehydrogenase deficiency *1346
Bortz, W., Abraham, S., Chaikoff, I. L., and **Dozier, W. E.** Fatty acid synthesis from acetate by human liver homogenate fractions 860
Boucher, R. See Genest, Biron, Chrétien, Boucher and Koiw *1360
Boushy, S. F. See Lewis, Adhikari, Boushy and Sakamoto *1379
Bowman, Frederick O. See Morkin, Levine, Bowman and Fishman *1386
Boyce, William H., King, J. Stanton, Jr., and **Fielden, Marvel L.** Total nondialyzable solids (TNDS) in human urine. XIII. Immunological detection of a component peculiar to renal calculous matrix and to urine of calculous patients 1180
Boyer, Samuel H., and **Porter, Ian H.** Electrophoretic heterogeneity of glucose-6-phosphate dehydrogenase and its relationship to enzyme deficiency *1347
Bradley, B. See Brown, Hopper, Hodges, Bradley, Wennesland and Yamauchi 2182
Braude, A. I. See Chernew and Braude 1945
—. See Sandson, Pavia and Braude *1397
Braun, William E., and **Lilienfield, Lawrence S.** Renal hemodynamic effects of mannitol infusion *1347
Braunwald, Eugene, Goldblatt, Allan, and **Harrison, Donald C.** Determinants of ventricular dimensions in intact unanesthetized man *1347
—. See Gleason and Braunwald 80
—. See Kahler, Gaffney and Braunwald 1981
—. See Kahler, Goldblatt and Braunwald 1553
Brecher, G. See Moores, Stohlman and Brecher *1386
Brewer, George J., Tarlov, Alvin R., and **Powell, Robin D.** Genetic implications of diisopropyl fluorophosphate (DFP)^{32}-erythrocyte survival studies in Negro females heterozygous for glucose-6-phosphate dehydrogenase deficiency *1348
Bricker, Neal S., and **Biber, Thomas.** Active "downhill" sodium transport across the isolated frog skin *1348
—. See Morrin, Bricker, Kime and Klein 1297
—. See Morrin, Gebney, Newmark and Bricker 1303
Brodsky, William A., and **Schilb, Theodore P.** Water-water interaction during solvent flow in isolated turtle bladders *1348
Brody, Jerome I. Reactivity of red cell eluates and serums in patients with acquired hemolytic anemia and chronic lymphocytic leukemia 471
Bromberg, P. A., Theodore, J., and **Robin, E. D.** Human erythrocyte pH with special reference to intracellular acidosis in hereditary spherocytosis *1349
Bronson, W. See Freireich, Morse, Bronson and Carbone *1359
Brooks, B. See Muirhead, Hinman, Daniels, Kosinski and Brooks *1387
Brown, E., Hopper, J., Jr., Hodges, J. L., Jr., Bradley, B., Wennesland, R., and **Yamauchi, H.** Red cell, plasma, and blood volume in healthy women measured by radiochromium cell-labeling and hematocrit 2182
Bruderman, Israel. See Stein, Alkalay and Bruderman *1402
Brun, Lili. See Adel, Daly, Deming, Brun and Raeff *1340
Buchanan, John M. See Herbert, Larrabee and Buchanan 1134
Buck, Katherin. See Duncan, Cornfield and Buck 1537
Bundy, Hallie F. See Haverback, Dyce, Bundy, Wirtschafter and Edmondson 972
Burg, Maurice, Berman, Mones, and **Orloff, Jack.** Measurements of K^+ exchange in separated renal tubules *1349
Burrows, Belton A. See Chobanian, Burrows and Hollander 1738
—. See Levitan, Fordtran, Burrows and Ingelfinger 1754
Buse, John. See Buse, Roberts and Buse 29
Buse, Maria G., Roberts, Walter J., and **Buse, John.** The role of the human placenta in the transfer and metabolism of insulin 29
Buttram, Harold. See Rector, Buttram and Seldin 611
Byers, Sanford O. See Friedman, Byers and St. George 828

C

Cader, Gordon. See Andres, Baltzan, Cader and Zierler 108
—. See Baltzan, Andres, Cader and Zierler 116
Cahill, George F., Jr. See Lee, Vance and Cahill *1377
Calabresi, Paul. Regional protection in cancer chemotherapy. I. Infusions of thymidine into external carotid artery of patients receiving systemic 5-iodo-2'-deoxyuridine 1484
—. See Bertino, Fink and Calabresi *1344
Caliva, Francis S. See Napodano, Caliva, Stafford and Lyons *1388
Calkins, Evan. See Cohen and Calkins *1350
Canessa-Fischer, Mitzy. See Davis, Canessa-Fischer and Edelmann *1353
Cannon, Paul J. See Laragh, Cannon, Ames, Sicinski, Bentzel and Meltzer *1375
Carbone, P. P. See Freireich, Morse, Bronson and Carbone *1359
Carpenter, Charles C. J. See Ayers, Davis, Lieberman, Carpenter and Berman 884
—. See Davis, Hartroft, Titus, Carpenter, Ayers and Spiegel 378
Carr, Edward A., Jr., Patno, Mary Ellen, and **Beierwaltes, William H.** Visualization of myocardial infarcts *in vivo* by scanning *1349

Cartwright, George E. See Athens, Haab, Raab, Boggs, Cartwright and Wintrobe *1342
—. See Haut, Tudhope, Cartwright and Wintrobe 579, 1766
Causing, Lynn. See Dull, Causing and Henneman *1355
Cera, Gerald. See Mulrow, Ganong, Cera and Kuljian 505
Chaikoff, I. L. See Bortz, Abraham, Chaikoff and Dozier 860
Chamberlain, C. W. See Dabney and Chamberlain *1352
Chaplin, Hugh. See Ozer, Miller and Chaplin *1390
Chapman, Robert G., Hennessey, M. A., Waltersdorph, A. M., Huennekens, F. M., and **Gabrio, Beverly W.** Erythrocyte metabolism. V. Levels of glycolytic enzymes and regulation of glycolysis 1249
—. See Simon, Chapman and Finch 351
Chase, Joan W. See Amatruda, Chase and Engel 758
Chase, Patricia E. See Pierce, Lambertsen, Deutsch, Chase, Linde, Dripps and Price 1664
Chasis, Herbert. See Gombos, Hulet, Bopp, Goldring, Baldwin and Chasis 203
Chernew, Irwin, and **Braude, A. I.** Depression of phagocytosis by solutes in concentrations found in the kidney and urine 1936
Cherry, James D. See Lerner, Cherry, Klein and Finland *1379
Chiba, Chiyo. See Wolf, Chiba, Ramos, Scholl-meyer and Bing *1413
Chobanian, Aram V., Burrows, Belton A., and **Hollander, William.** Body cholesterol metabolism in man. II. Measurement of the body cholesterol miscible pool and turnover rate 1738
—, and **Hollander, William.** Body cholesterol in man. I. The equilibration of serum and tissue cholesterol 1732
Chow, Bacon F. See Hsu, Tantengco and Chow 532
Chrétien, M. See Genest, Biron, Chrétien, Boucher and Koiw *1360
Christy, Nicholas P. See Borkowski, Marks, Katz, Lipman and Christy *1346
Clapp, James R., and **Watson, John F.** Osmolality, pH, and inulin concentration in proximal tubular fluid of the dog *1350
—. See Rector and Clapp 101
Clark, Albert. See Bongiovanni and Clark *1346
Cleton, Frans. See Turnbull, Cleton and Finch 1897
Cluff, Leighton E. See Perry and Cluff *1392
Coffee, Karen. See Tobian, Coffee, Ferreira and Meuli *1404
Coghlan, J. P. See Blair-West, Coghlan, Denton, Goding, Munro, Peterson and Wintour 1606
Cohen, Alan S., and **Calkins, Evan.** Isolation and characterization of amyloid fibrils by physical techniques *1350
Cohen, Allan I. See Whalen, Cohen, Sumner and McIntosh *1411
Cohen, Gerard M. See Goldring, Turino, Cohen, Jameson, Bass and Fishman 1211
Cohen, Joseph L. See Jick, Cohen and Morrison *1368
Cohen, Nathaniel. See Lindner and Cohen *1380
Cohen, Phin, and **Gardner, Frank H.** Platelet preservation. I. Preservation of canine platelets at 4° C 1
—, and **Gardner, Frank H.** Platelet preservation. II. Preservation of canine platelet concentrates by freezing in solutions of glycerol plasma 10
Cohn, George L., and **Mulrow, Patrick.** Androgen production and biosynthesis by adrenal glands from patients with normal and hyperadrenal function *1350
—. See Mulrow, Cohn and Kuljian 1584
—. See Mulrow, Cohn, Kuljian and Ganong *1388
Colman, Robert W., and **Alexander, Benjamin.** A new coagulation factor vulnerable to thorium and related elements *1351
Combes, Burton. The importance of conjugation with glutathione on sulfobromophthalein (BSP) transport from blood to bile *1351
—, and **Stakelum, Geneva Sue.** Maturation of the sulfobromophthalein sodium-glutathione conjugating system in rat liver 750
Comroe, J. H., Jr. See Finley, Swenson and Comroe 618
—. See Wasserman and Comroe 401
Congdon, Charles C. Anatomic structure of lymphatic tissues and immune function *1351
Conley, C. Lockard. See Schmid, Jackson and Conley 543
Connor, William E. The acceleration of thrombus formation by certain fatty acids 1199
Converse, J. M. See Rapaport, Lawrence, Thomas, Converse, Tillett and Mulholland 2166
Cooner, A. E. See Coppage, Island, Cooner and Liddle 1672
Cooper, Bernard A., and **Lowenstein, Louis.** Vitamin-B_{12} binding by normal human serum *1352
—, **Paranchych, William,** and **Lowenstein, Louis.** Studies on the absorption by guinea pig intestine of cyanocobalamin incubated with intrinsic factor 370
Cooper, Collin E., and **Nelson, Don H.** ACTH levels in plasma in preoperative and surgically stressed patients 1599
Cooper, Herbert L. See Preisig, Cooper and Wheeler 1152
Coppage, W. S., Jr., Island, D. P., Cooner, A. E., and **Liddle, Grant W.** The metabolism of aldosterone in normal subjects and in patients with hepatic cirrhosis 1672
Cornfield, Jerome. See Duncan, Cornfield and Buck 1537
Corvilain, Jacques, and **Abramow, Maurice.** Some effects of human growth hormone on renal hemodynamics and on tubular phosphate transport in man 1230
Cotton, H. Brooks, and **Harris, John W.** Familial pyridoxine-responsive anemia *1352
Craddock, C. G., and **Nakai, G. S.** Leukemic cell proliferation as determined by *in vitro* deoxyribonucleic acid synthesis 360
Crawford, John D. See Isom, Kalayci and Crawford *1367
Crosby, William H. See Thirayothin and Crosby 1206
Cruchaud, André. See Gitlin and Cruchaud 335
Cutler, Ralph E., Kleeman, Charles R., Koplowitz, Jerry, Maxwell, Morton H., and **Dowling, J. T.** Mechanisms of impaired water excretion in adrenal and pituitary insufficiency. III. The effect of extracellular or plasma volume expansion, or both, on the impaired diuresis 1524

D

Dabney, W. T. III, and **Chamberlain, C. W.** Fatty acid composition of erythrocyte phospholipids in anemic patients. *1352

Dahlqvist, Arne. Specificity of the human intestinal disaccharidases and implications for hereditary disaccharide intolerance 463

Daly, Marie M. See Adel, Daly, Deming, Brun and Raeff *1340

Daly, Walter J., and **Behnke, Roy H.** Hemodynamic consequences of oxygen breathing in left ventricular failure *1353

—, and **Bondurant, Stuart.** Effects of oxygen breathing on the heart rate, blood pressure, and cardiac index of normal men—resting, with reactive hyperemia, and after atropine 126

Dammin, Gustave J. See Henry, Marshall, Friedman, Dammin and Merrill 420

Dancis, J. See Uhr, Dancis, Franklin, Finkelstein and Lewis *1406, 1509

Daniels, E. G. See Muirhead, Hinman, Daniels, Kosinski and Brooks *1387

Danoff, David. See Laster and Danoff *1376

Daughaday, William H. The formation of free hydroxyproline by cartilage *1353

—. See Parker, Utiger and Daughaday 262

—. See Utiger, Parker and Daughaday 254

Davidson, Charles S. See Lieber, Jones, Losowsky and Davidson *1380, 1863

Davidson, Paul L. See Lancestremere, Davidson, Earley, O'Brien and Papper *1375, 1922

Davis, James O., Hartroft, Phyllis M., Titus, Elwood O., Carpenter, Charles C. J., Ayers, Carlos R., and **Spiegel, Herbert E.** The role of the renin-angiotensin system in the control of aldosterone secretion 378

—. See Ayers, Davis, Lieberman, Carpenter and Berman 884

Davis, John S. IV, and **Bollet, Alfred Jay.** Effects of antibodies on mitochondria 2142

Davis, Robert P., Canessa-Fischer, Mitzy, and **Edelmann, Chester M., Jr.** The effect of adenosine derivatives on ion transport and energy metabolism in the toad bladder *1353

Davson, Hugh. See Kleeman, Davson and Levin *1373

Declerck-Raskin, M. See De Moor, Heirwegh, Heremans and Declerck-Raskin 816

Deiss, William P., Jr. See Johnston, Miner and Deiss *1369

Deming, Quentin B. See Adel, Daly, Deming, Brun and Raeff *1340

De Moor, P., Heirwegh, K., Heremans, J. F., and **Declerck-Raskin, M.** Protein binding of corticoids studied by gel filtration 816

Dempsey, Eleanor F. See Henneman, Wallach and Dempsey 537

Denny, Floyd W., Jr. See Krause, Rammelkamp, Denny and Wannamaker 568

Denton, D. A. See Blair-West, Coghlan, Denton, Goding, Munro, Peterson and Wintour 1606

Dern, Raymond J., Monti, Alberto, and **Glynn, Michael F.** Evidence for a second iron-binding system in plasma *1354

Deutsch, Stanley. See Pierce, Lambertsen, Deutsch, Chase, Linde, Dripps and Price 1664

—. See Price, Jones, Deutsch and Linde 604

DiMase, Joseph D. See Donaldson, Katz and DiMase *1354

Dingman, Joseph F., Arimura, Akira, Peterson, Ralph E., and **Heath, Robert G.** Abnormal neural regulation of vasopressin and aldosterone secretion in a patient with cerebral hyponatremia *1354

Djerassi, Isaac, Farber, Sidney, Roy, Albert J., and **Yoshimura, Hiroku.** Effects of soybean phosphatides on the hemorrhagic tendency due to thrombocytopenia 770

Doak, Lydie S. See Schrier and Doak *1397

Dobkin, Gerald. See Alter, Lee, Pourfar and Dobkin *1341

Dominguez, Oscar V. See Watanabe, Dominguez, Meeker, Sims, Gray and Solomon *1408

Donaldson, Robert M., Jr., Katz, Jay H., and **DiMase, Joseph D.** Demonstration of an exchange between free and intrinsic factor-bound vitamin B_{12} *1354

Doniach, Deborah. See Forbes, Roitt, Doniach and Solomon 996

Dooley, Elmo S. See Frohlich, Scott and Dooley 147

Dorward, Barbara. See Fink, Miller, Dorward and LoSpalluto 1422

—. See LoSpalluto, Miller, Dorward and Fink 1415

Dowling, J. Thomas. See Cutler, Kleeman, Koplowitz, Maxwell and Dowling 1524

—. See Hiss and Dowling 988

—. See Nicoloff, Nicoloff and Dowling 1998

Dozier, W. E. See Bortz, Abraham, Chaikoff and Dozier 860

Dreizen, Paul. Rheology of human blood. Studies on the flow of fresh venous blood and of citrated blood through tubing of diameters between 0.09 and 0.20 cm 2036

Dripps, Robert D. See Pierce, Lambertsen, Deutsch, Chase, Linde, Dripps and Price 1664

DuBois, Arthur B. See Feisal, Soni and DuBois 390

Duckett, John W., Jr. See Robinson, Marsh, Duckett and Walser *1394

Duke, Martin, and **Abelmann, Walter H.** Control of cardiac output in anemia *1355

Dull, Theodore A., Causing, Lynn, and **Henneman Philip H.** Urinary total hydoxyproline as an index of connective tissue turnover in bone *1355

Duncan, Leroy E., Jr., Cornfield, Jerome, and **Buck, Katherin.** The effect of blood pressure on the passage of labeled plasma albumin into canine aortic wall 1537

Duyck, Caroline. See Kendall, Matsuda, Duyck and Greer *1371

Dyce, Barbara. See Haverback, Baldridge and Dyce *1364

—. See Haverback, Bundy, Wirtschafter, and Edmondson 972

E

Earley, Laurence E. Osmotic water transfer across a vasopressin-sensitive and an artificial membrane *1355

—, and **Orloff, Jack.** The mechanism of antidiuresis associated with the administration of hydrochlorothiazide to patients with vasopressin-resistant diabetes insipidus 1988

—. See Lancestremere, Davidson, Earley, O'Brien and Papper *1375, 1922
Eckstein, John W., Abboud, François M., and **Pereda, Santiago A.** The effect of norepinephrine on cardiac output, arterial blood pressure, and heart rate in dogs treated with chlorothiazide 1578
—. See Abboud and Eckstein *1340

SUBJECT INDEX

(Page numbers marked with an asterisk refer to abstracts)

A

Acanthocytes
interconversion of, and normal erythrocytes with detergents, 1404*

Acetate
effect on metabolism of glucose-U-C^{14} and palmitate-1-C^{14} in rat heart, 1401*
in fatty acid synthesis, 860
production in ethanol metabolism, 955

Acetoacetate
and palmitate, depression of glucose oxidation in rat heart, 1385*

Acid-base balance
effects of phosphoproteins on, 637
intracellular relations with reference to extracellular volume of dog brain, 1371*

Acid-base equilibrium
effect of chronic hypercapnia on, 2246

Acid-base regulation
role of selective chloride depletion in, 1850

Acidifying capacity
in experimentally diseased dog kidneys, 1297

Acidosis
effect on calcium, phosphorus and other ions, 1454
enzyme activity in nephrons of acidotic and healthy dogs, 1392*
experimentally diseased dog kidneys and relation to chronic uremia in humans, 1297
human erythrocyte pH in hereditary spherocytosis, 1349*
regulation of pulmonary circulation, 1492
renal, mechanisms of, 1361*

ACTH
cytological location in human pituitary, 1720
effect on aldosterone biosynthesis, 715
plasma levels using rat bioassay, 20
preoperative and postoperative plasma levels, 1599
release, role of brain in steroidal inhibition of, 1371*
stimulation of the adrenal, 1606

Activation product
assay, thrombotic activity and association with serum thrombotic accelerator (STA), 235

Addison's disease
increased ability to taste salt, 1364*
water diuresis after expansion of extracellular fluid, 1078
1436

Adenine
and inosine, effect of on survival of stored erythrocytes, 690
role in red cell preservation, 351

Adenosine
derivatives and effect on ion transport and energy metabolism in the toad bladder, 1353*
effect of, on survival of stored erythrocytes, 690

Adipose tissue
lipid peroxidation, 1288
measurement of insulin-like activity in rat, 1699

Adrenal gland
action of androgen on steroidgenesis, 1373*
androgen production and biosynthesis by adrenal glands from patients with normal and hyperadrenal function, 1350*
biosynthesis of aldosterone, 715
conversion to cortisol by tissue, 1584
effects of guanethidine, 1342*
humoral stimulation of adrenocorticotrophin, 1606
in vitro adrenal preparations in comparison of metabolism of desmosterol and cholesterol, 2135
incorporation of 17-hydroxy-pregnenolone-H^3 into cortisol by, 1388*
interdependence of calcium and sodium reabsorption in the kidney, 1394*
kinetic aspects of cortisol-4-C^{14} metabolism in Cushing's syndrome after subtotal adrenalectomy, 1871
role in ketonemia during insulin hypoglycemia, 758
secretion of 18-dihydroaldosterone, 1406*
vasopressin and aldosterone secretion in a patient with cerebral hyponatremia, 1354*
water diuresis in Addisonian patients by expansion of extracellular fluid, 1078

Adrenalin
adrenomedullary effects of guanethidine, 1342*
-induced necrosis of myocardium, 1393*
sympathoadrenal response to gravitational stress, 197, 203

Adrenogenital syndrome
deficiency of 3β-hydroxysteroid dehydrogenase, 2086
urinary Δ-5-pregnene-3β,17α,20α,-21-tetrol in 3β-ol-dehydrogenase deficiency, 1346*

Agar gel diffusion technique, 1436
Antibody responses in tularemia,

Agglutination
of stored erythrocytes by a serum factor, 1390*

D-Alanine
blockage of D-cycloserine antibiosis, 1366*

Albumin
dialysis studies of thyroxine binding, 1021
effect on hypertension, 1537
I^{131}–, studies of catabolism and distribution in male adults, 1312
placental transfer of radioiodinated serum, 32
serum binding, role of phenolic hydroxyl group of thyroxine on, 1403*
serum concentration in early fetus, 1070
synthesis
degradation in hyperglobulinemia, 1564
effect of colloid osmotic pressure, 1395*

Aldehyde
composition in platelet phosphatides, 2198

Aldosterone
biosynthesis, effect of ACTH, renin and angiotensin II on, 715
effects of chronic hepatic venous congestion on metabolism of, 884
metabolic clearance rate in pregnant and nonpregnant subjects using single injection and constant-infusion methods, 2093
metabolism in normal and diseased livers, 1672
retardation of sodium flux in dog erythrocytes, 1403*
secretion
after aortic constriction, 1503
after hypophysectomy, 1503
association with renin-angiotensin, 378
in pregnancy, 1408*
stimulating factor in dog kidneys, 505
vasopressin secretion in a patient with cerebral hyponatremia, 1354*

Aldosteronism (*See also* hyperaldosteronism)
primary, altered autonomic nervous system and renal responses in, 1345*

Alimentary lipemia
heterogeneity of fat particles in plasma during, 2254

Alkaline phosphatase
leukocyte, a chromosome marker in Mongolism, 1341*

Alkalosis
metabolic, association with K deficiency and role of chloride on recovery from, 219

metabolic, and effects of bidirectional renal release of ammonia in cirrhotics, 1139
nitrate-induced, 1850
respiratory, and effects on bidirectional renal release of ammonia in cirrhotics, 1139

Alveolar-capillary block
arterial hypoxemia, 618

Amethopterin
effect on induction of dihydrofolic reductase activity in erythrocytes and leukocytes, 1344*

Amino acids
dibasic, competitive inhibition of transport in rat kidney, 1394*
effect on K metabolism in mammalian muscle, 480
L-histidine
and urocanic acid, 1472
and formiminoglutamic acid, 1472
inulin and endogenous amino acid clearance in cystinuria, 281
metabolism and differential "aging" in bone, 1389*
plasma rise in adult celiac disease after oral gliadin administration, 1374*

Ammonium excretion
in experimentally diseased dog kidneys, 1297

Amyloid
fibrils, isolation and characterization by physical techniques, 1350*

Analog computer analysis
for diffusing capacity measurements, 1379*

Androgen
action on adrenal steroidgenesis, 1373*
production and biosynthesis by adrenal glands from patients with normal and hyperadrenal function, 1350*

Androsterone
reduction of serum cholesterol in man, 1364*

Anemia
acquired hemolytic, reactivity of red cell eluates in, 471
control of cardiac output in, 1355*
familial pyridoxine-responsive anemia, 1352*
fatty acid composition of erythrocyte phospholipids in anemic patients, 1352*
hereditary spherocytosis, genetic carriers, 554
hypoplastic and iron-deficiency, regulation of iron absorption, 1384*
megaloblastic, red cell maturation and hemoglobin synthesis, 1086

Anesthesia
thiopental, and cerebral circulation, 1664

Antibodies
after bacteriophage Φ X 174 inoculation, 1406*, 1509
cytotoxic autoantibody in Hashimoto's disease, 996
cytotoxic, effect *in vivo*, 1384*
effects of, on mitochondria, 2142
fluorescent antibody technique for presence of gamma globulin and complement in the diseased kidney, 328
insulin-binding and effect on excretion of insulin in diabetics with nephrotic syndrome, 1392*
to intrinsic factor in pernicious anemia, 1106
macroglobulin formation
in adults, 1415
in infants and older children, 1422
maternal isoantibodies responsible for neonatal purpura, 1059
maternally transferred, 1422
neutralizing, to polioviruses, in normal urine, 805
to penicillin, 588
production of
7S type, 1415, 1422
by vaccine made from streptococcal cell walls, 301
properties of univalent 3.5S fragment of 7S agglutinating antibodies, 1360*
rabbit-agglutinating, serological studies of proteolytic fragments of, 2123
in tularemia, 1436

Angiotensin
aldosterone-stimulating factor, 505
blood levels in normals and hypertensive patients, 1360*
effect on aldosterone biosynthesis, 715
relationship to hypertension of renal origin, 1386*
role in secretion of aldosterone, 378
II, diminished half-life in hypertensive plasma, 1365*
II, and renal sodium transport; production of natriuresis and diuresis in patients with cirrhosis and ascites, 1375*

Anticholinesterase tolerance
in nonmyasthenic patients, 1383*

Antidiuresis
mechanisms of, with administration of hydrochlorothiazide to patients with vasopressin-resistant diabetes insipidus, 1988

Antidiuretic hormone
action on sodium content of renal medulla, 1145
and aldosterone secretion, abnormal neural regulation in a patient with cerebral hyponatremia, 1354*
effect on water movement in toad bladder, 702
inappropriate secretion of, in acute porphyria and hyponatremia, 1381*
kinetic analysis of the antidiuretic action of vasopressin, 1356*
osmotic water transfer across a vasopressin-sensitive and an artificial membrane, 1355*

Antigenicity
of natural and synthetic polynucleotides, 1414*

Antigens
bacteriophage Φ X 174, immunization with in newborn infants, 1509
of Group A streptococcal cell walls and relationship to human heart tissue, 1370*
platelet, a second system, 1059
relation of urinary proteins to plasma gamma globulin, 1190
typhoid-paratyphoid, immunization with, 1415, 1422

Antihypertensive principle
from renal medulla, 1387*

Antimetabolites
and pyrimidine nucleotide synthesis in leukemia, 871

Antineoplastic agents
See antimetabolites

Antistaphylokinase
inhibitor of Muller phenomenon, 92

Aorta
constriction above renal arteries, 1503

Aortic insufficiency
mechanism of Duroziez's murmur, 1396*

Aortic stenosis
hypertrophic subvalvular, nature of, 1411*

Arbovirus infections
and obscure neurological syndromes in Puerto Rican children, 1400*

Arrhythmias
cardiac, use of DC countershock, 1381*

Arterial blood pressure
chlorothiazide and norepinephrine effects, 1578

Arterioles
metabolism as studied in the Cartesian diver, 1366*

Arthritis
lactic dehydrogenase activity in synovial fluid and sera of arthritic patients, 2012

Aryl amine acetylation
in human red cells, 1387*

Asthma
bronchial, unilateral, provoked by horse epithelium aerosol in allergic patients, 1236

Atherosclerosis
experimental, origin of lipid and cholesterol, 828

Atrial septal defect
and pulmonary diffusing capacity during rest and exercise, 1908

Atropine
and curare, effect on human esophagus, 1369*

Autoimmunity
and Hashimoto's disease, 996

Autonomic nervous system
altered responses in primary aldosteronism, 1345*

Autonomic nervous system (*cont'd*)
effects of cyclopropane anesthesia, 604
effects of its inhibition on circulatory response to muscular exercise, 1981

B

Bacteriophage
ΦX 174, antibody response in newborn premature infants, 1406*, 1509
Basal metabolism
and body composition in malnourished infants, 1653
Bence Jones proteins
urinary proteins and plasma gamma globulin, 1190
Bicarbonate
reabsorption in experimentally diseased dog kidneys, 1303
Bile
acids
conversion of desmosterol into, under triparanol therapy, 962
pyrogenic and inflammatory properties, 1573
pigments, increased production in chronic unconjugated hyperbilirubinemia not derived from the hemoglobin of mature erythrocytes, 1341*
production and taurocholate secretion, 1152
Bilirubin
chronic unconjugated hyperbilirubinemia with increased production of bile pigment not derived from the hemoglobin of mature erythrocytes, 1341*
conjugation and dipyrrylmethene ("fuscin") pigments, 1041
formation from hemoglobin, 1628
mechanism of intestinal absorption, 1379*
sulfate and glucuronide conjugates of, in experimental liver injury, 133
Bladder
toad
effect of adenosine derivatives on ion transport and energy metabolism, 1353*
effects of vasopressin, cyclic AMP and theophylline on, 702
response to anisomotic bathing media, 1367*
turtle, water-water interaction during solvent flow, 1348*
Blood
-brain barrier, alterations of CSF pressure and association with production of meningitis during pneumococcal bacteremia, 320
cephalic flow measurement, 1429
cerebral flow measurement, 1429
coagulation
changes in lipemia in rat, 1708
activity of platelet phosphatides in, 2198
renal
estimation of flow with krypton^{85}, 2112
vessel
accumulation of lipid and cholesterol in thromboatherosclerosis, 828
action of soybean phosphatides on vascular permeability, 770
viscosity
alterations in dysproteinemia, 1410*
and hematocrit relationship, 1591
volume, measurement of, in women by venous hematocrits, 2182
Blood flow
cephalic measurement, 1429
cerebral measurement, 1429, 2036
renal, estimation of with krypton^{85}, 2112
rheological properties of human venous and citrated, 2036
Body water
total, in healthy men of varying fat content, 1840
Bone
differential "aging," 1389*
effect of parathyroid hormone on collagen metabolism *in vitro*, 1369*
pH gradients between ECF and mineral surface; calcium metabolism, 1163
urinary total hydroxyproline as an index of connective tissue turnover in, 1355*
Brain
intracellular acid-base relations with reference to the extracellular volume of the dog brain, 1371*
role in steroidal inhibition of ACTH release, 1371*
urea transport, 1373*
Bronchial asthma
unilateral, provoked by horse epithelium aerosol in allergic subjects, 1236
BSP-glutathione conjugating system
activity in rat liver at various stages in development, 750
conjugation in newborn infants and children, 1013
importance of conjugation with glutathione on BSP transport from blood to bile, 1351*

C

Calcium
in acidosis, 1454
effect on parathyroid extract on renal tubular reabsorption of, in dog, 2151
in hypercalcemia, 1454
in hyperthyroidism, 1454
ion distribution in ECF and bone mineral surface, 1163
phosphate intake, effect on radiostrontium absorption in mice, 1398*
in renal failure, 1454
sodium reabsorption in the kidney, interdependence of, 1394*
Calculus
renal, immunologically discrete components to matrix, 1180
Cancer
chemotherapy, 1484
Carbohydrate intermediates
metabolism, effect of TSH on in thyroid slices, 1375*
phosphorylated, of red blood cell, 690
Carbon dioxide
tension, use of lymph for measurement of, 1971
CO_2 inhalations
effect on P_{CO_2} of the right and left side of the circulation, 1360*
Carbonic anhydrase
activity, erythrocyte, physiologic changes, 1373*
in renal inhibition of H^+ secretion, 611
Cardiac output
chlorothiazide and norepinephrine effects, 1578
control of, in anemia, 1355*
determination of, in cirrhosis, 1922
effect of oxygen breathing on, in left ventricular failure, 1353*
effect of posture on, 949
hepatic blood flow, effect of endotoxin on, 1387*
renal hemodynamics in Laennec's cirrhosis, 1375*
Cardiovascular lesions
in lipemia, 1708
Cardiovascular response
to corticosteroids in normal subjects and in patients with acute hypotension, 1396*
impairment, to tyramine by administration of reserpine, 1382*
Cartesian diver
to study metabolism of arterioles and venules, 1366*
Cartilage
formation of free hydroxyproline, 1353*
Cataract formation
in newborns of pregnant rats fed a high galactose diet, 1399*
Catecholamines
and pulmonary arterial pressor response to acute hypoxia, 1211
Cations
relationship with ATP to mitochondrial swelling and shrinkage, 1358*
Celiac disease
abnormal rise of plasma amino acids and a polypeptide after oral gliadin, 1374*
absorption of fatty acids, 488
adult, rapid sequential changes in jejunal mucosa with alterations of dietary gluten, 1344*
Cell-labeling
measurement of red cell volume with radiochromium-labeled cells, 2182
Cell proliferation
kinetics of, in gastrointestinal mucosa, 1380*

Central blood volume
measurement by Stewart-Hamilton principle, 1375*
Central nervous system
See brain
Cephalic blood flow
measurement of, 1429
Cerebral blood flow
direct relationship to ventilation response, 269
measurement of, by external isotope counting, 2036
Cerebral circulation
during anesthesia and hyperventilation, 1664
Cerebrospinal fluid
newer lipids of, 1405*
Chemoreceptors
in venous and pulmonary circulation for regulation of respiration, 1396*
Cheyne-Stokes respiration
mechanism, 42
Chloride
active reabsorption in distal renal tubule, 101
correction of metabolic alkalosis, 219
depletion in acid-base regulation, 1850
total exchangeable, in healthy men of varying fat content, 1840
Chlorothiazide
and norepinephrine, 1578
Cholesterol
effect of dietary protein on, 1007
effect of hypertension on synthesis in rats, 1340*
effect on protein synthesis, 842
ester, metabolism of chylomicron, 1886
hypercholesterolemia, use of thyroxine, 696
lipid transport in tissues, 1366*
measurement of miscible pool and turnover rate, 1738
metabolism of desmosterol during triparanol administration, 962
origin of, in experimental atherosclerosis, 828
rate of equilibration between serum and tissue, 1732
serum
alteration induced by DNA, 1397*
reduction of, by oral androsterone, 1364*
synthesis, studies on the two pathways of, 1412*
Cholinergic blockade
effect on relationship between taurocholate secretion and bile production, 1152
Chromatography
of abnormal myoglobin in muscular dystrophy, 1391*
Chromosomes
marking using leukocyte alkaline phosphatase in Mongolism, 1341*
Chylomicrons
cholesterol ester, metabolism of, 1886
dietary, participation of endogenous lipids in formation of, 1359*
measure of tissue distribution of C^{14} in nephrotic rats, 185
triglyceride fatty acids, removal from blood, 1915
Chymotrypsin
protein binding and proteolytic activity, 972
Circulatory response
in exercise, effect of autonomic inhibition on, 1981
Cirrhosis
ascites, natriuresis and diuresis, 1375*
decompensated, cardiac output and renal hemodynamics, 1375*
effect of side-to-side portacaval shunt on hepatic hemodynamics, 1242
Laennec's, cardiac output and renal hemodynamics in, 1922
nutritional, bidirectional release of ammonia in kidney in metabolic and respiratory alkalosis, 1139
nutritional, renal water and solute excretion, 594
renal effects of glucocorticoids in, 1368*
Clot
abnormal structures during "fibrinolytic" states, 935
Coagulation
Factor VIII, a new method of measurement, 1401*
Hageman factor, acceleration of thrombus formation, 1199
a new factor vulnerable to thorium and related elements, 1351*
pathogenesis of "fibrinolytic" defects, 896, 917, 935
Product I, clearance by liver, 1402*
Colchicine
mechanism of action in acute gouty arthritis, 1399*
Collagen
effect of parathyroid hormone on metabolism of, in bone, 1369*
effect of thyroid hormone on metabolism of, 1371*
production by Dilantin in rat skin, 179
Colloid osmotic pressure
regulator of albumin synthesis, 1395*
Colon
pressure-volume characteristics, 1831
water and salt absorption in, 1754
Complement
action in the Donath-Landsteiner reaction, 1365*
association with gamma globulin in diseased kidneys, 328
in subacute bacterial endocarditis, 666
Congestive heart failure
effect of exercise on ventricular ejection rate, 1050
myocardial oxygen extraction, 725
Conglutinin
in subacute bacterial endocarditis, 666
Constant-infusion method
use in estimation of metabolic clearance rate of aldosterone, 2093
Coronary cineangiocardiography
electrocardiographic and hemodynamic observations, 1395*
Coronary circulation
effect of coronary cineangiocardiography on, 1395*
effect of *Salmonella typhosa* endotoxin on, 147
myocardial oxygen extraction, 725
Coronary insufficiency
myocardial oxygen extraction, 725
Cortisol
17-hydroxy-pregnenolone conversion, 1584
Cortisol-4-C^{14}
metabolism in Cushing's syndrome, 1871
Cortisol, cortisone
See steroid hormones
Cortisone derivatives
ACTH stimulation, 1606
Countercurrent mechanism
operation during water diuresis, 1401*
Countershock
DC, in treatment of cardiac arrhythmias, 1381*
Coupled nonionic diffusion
permeability to weak electrolytes, 1394*
Coxsackie A-21 (Coe Agent)
experimental infection in volunteers, 1369*
Curare
and atropine, effect on human esophagus, 1369*
Cushing's syndrome
kinetic aspects of cortisol-4-C^{14} metabolism in, 1871
Cyanocobalamin
and intrinsic factor, intestinal absorption, 370
Cyclic AMP
effect on water movement in toad bladder, 702
Cyclopropane
anesthetic effects on ventricular function and autonomic nervous activity, 604
D-Cycloserine antibiosis
blockage by D-alanine, 1366*
Cystic fibrosis
absorption of fatty acids, 488
urinary mucoprotein abnormality, 455
Cystinuria
relationship of certain amino acid clearances to inulin clearance, 281

D

Defibrillation
comparison of DC and AC under hypothermia, 1378*
Desmosterol
metabolism during triparanol administration, 962

Desmosterol (*cont'd*)
metabolism of, with adrenal and liver preparations, 2135
Desoxyribonucleic acid
synthesis of, 1484
Detergents
interconversion of acanthocytes and normal erythrocytes, 1404*
Dextran gel filtration
of serum proteins involved in host defenses against infection, 1408*
Diabetes
patients with, and nephrotic syndrome, effect of insulin-binding antibodies on insulin excretion, 1392*
Diabetes insipidus
vasopressin-resistant, effect of administration of hydrochlorothiazide on patients with, 1988
Diethylaminoethyl cellulose
isolation of a hemoglobin-free enzyme protein fraction from red blood cell, 1257
Differential "aging" in two types of bone
patterns of amino acid and glucose metabolism, 1389*
Digitalis
new approach to clinical pharmacology in man, 1409*
18-Dihydroaldosterone
secretion by human adrenal, 1406*
Dihydrofolic reductase
activity in erythrocytes and leukocytes of subjects treated with amethopterin, 1344*
Diisopropyl fluorophosphate (DFP)
erythrocyte survival studies in Negro females heterozygous for G-6-P dehydrogenase deficiency, 1348*
Dilantin
production of collagen in rat skin, 179
Dipyrrylmethene ("fuscin") pigments
anabolic relation to heme synthesis, 1041
Disaccharidases
intestinal, 463
Disaccharide
hereditary intolerance, 463
Diuresis
water
in Addisonian patients by expansion of extracellular fluid, 1078
in adrenal and pituitary insufficiency, 1524
electrolyte composition in medulla and action of ADH, 1145
Donath-Landsteiner reaction
action of complement in, 1365*
Doroziez's murmur
mechanism of, 1395*
Dysproteinemia
blood viscosity alterations, 1410*

E

Electroencephalography
evaluation of uremia, 1372*
Electrolytes
weak, permeability of, and coupled nonionic diffusion, 1394*
Electrolyte equilibrium
effects of chronic hypercapnia on, 2246
Electrophoresis
starch gel separation of nonhemoglobin erythrocytic proteins, 579
heterogeneity of glucose-6-phosphate dehydrogenase and its relationship to enzyme deficiency, 1347*
Endotoxin
effect on cardiac output and hepatic blood flow in normal and tolerant rabbits, 1387*
effect on lysosomes, 1410*
purified bacterial, its leukocytic and febrile response, 162
of *Salmonella typhosa* and effect on coronary and peripheral vascular resistance, 147
tolerance, mechanism of, 1362*
Enterovirus
selective inhibition of nucleic acid synthesis by 2-(α-hydroxybenzyl)-benzimidazole, 1356*
Enzymes
activity in nephrons of healthy and acidotic dogs, 1392*
glycolytic, in red blood cell metabolism, 1249
pancreatic proteolytic, protein binding of, 972
red blood cell, separation from hemoglobin, 1257
Epithelial cells
proliferation and migration in mouse colon, 141
Erythrocytes
See red blood cells
Erythropoiesis
survival of macrocytes after splenectomy, 1386*
relationship to globin synthesis in man, 1389*
Erythropoietin
and testosterone, effect on iron uptake, 1357*
Escherichia coli
nonenteric infections of, 1760
prevalence of serological groups, 1760
16-C^{14}-Estradiol-17β
in vitro interconversion of, with 16-C^{14}-estrone, 2025
Estrins
disappearance from plasma and urine after delivery of placenta, 1382*
Estrone
in vitro interconversion of, with 16-C^{14}-estradiol-17β, 2025
Ethanol
alcoholic hypoglycemia, pathogenesis and clinical features, 1359*
effects in experimental infections in mice, 1381*
effects on serum concentration and urinary excretion of urate in man, 1380*
-induced fatty liver, effect on the transport of triglyceride fatty acids from liver to plasma, 1344*
-induced hypoglycemia, mechanism of, 1357*
Ethanol metabolism
in the liver, 955
and uric acid interrelation in man, 1863
Euthyroidism
and range of thyroid function, 2065
Exercise
effect on left ventricular ejection rate, 1050
effect on P_{CO_2} of the right and left side of the circulation, 1360*
patterns of human myocardial oxygen extraction during, 725
Exophthalmic serum
and TSH, stimulation of radiosulfate incorporation into pig Harderian gland, 1363*
Extracellular fluid
expansion of, and water diuresis in Addison's disease, 1078
pH gradients and calcium ion distribution between bone mineral surface, 1163

F

Factor VIII
new method for measurement of, 1401*
Fat
See lipid metabolism
Fat content
and body composition in healthy men, 1840
Fat particles
heterogeneity in plasma during alimentary lipemia, 2254
Fatty acids
absorption in steatorrhea, 488
acceleration of thrombus formation, 1199
composition of erythrocyte phospholipids in anemic patients, 1352*
composition in platelet phosphatides, 2198
effect of ethanol-induced fatty liver on the transport of triglyceride fatty acids from liver to plasma, 1344*
esterification during fat absorption, 1412*
free, quantitative role in forearm metabolism in man, 116, 2191
measure of tissue distribution of C^{14} in nephrotic rats, 185
oxidation by peripheral tissues, 677
peroxidation and lipolysis, 1288
synthesis from acetate, 860
triglyceride, removal and distribution in chylomicrons, 1915
Febrile response
effect of purified bacterial endotoxin, 162

Fecal flora
relation to endogenous infections of the urinary tract, 1408*
Ferritin
incorporation through serosal surface of small intestine, 1206
Fetus
serum proteins and thyroxine-protein interaction, 1070
Fibrin
abnormal clot structure during "fibrinolytic" states, 935
clearance of, in pathogenesis of Shwartzman reaction, 1378*
defective polymerization, 917
Fibrinogen
proteolysis and breakdown products, 896
Fibrinolysis
active Hageman factor in, 1277
changes in, in lipemia in rat, 1708
Folate compound
identification in human serum, 1134
Folic acid
activity in human serum in the monoglutamate form, 1134
deficiency and influence on absorption of Co^{60}-B_{12}, 532
interrelation with vitamin B_{12} metabolism, 1263
Forearm metabolism
dissociation of insulin action, 1393*
measured by free fatty acids, 116
Forearm muscle
quantitative role of free fatty acids in metabolism of, 2191
Formiminoglutamic acid
excretion of, with and without histidine, 1472
Free fatty acids
quantitative role in forearm metabolism in man, 2191
Fuscin pigments
anabolic relation to heme synthesis, 1041

G

Galactose
high diet of, to pregnant rats and formation of cataracts in newborns, 1399*
Gamma globulin
antibodies to penicillin, 588
antibody to intrinsic factor in pernicious anemia, 1106
association with complement in diseased kidneys, 328
cytotoxic autoantibody in Hashimoto's disease, 996
inhibitor of staphylococcal Muller phenomenon, 92
in proteinuria, 1638
relation to urinary proteins, 1190
serum concentration in early fetus, 1070
Gas exchange
and pulmonary capillary blood flow, 1386*
Gas tension
use of lymph in measurement of, in interstitial fluid and tissues, 1971
Gastric juice
chromatographic patterns, 660
chromatograms of achlorhydric specimens in subjects with and without pernicious anemia, 1410*
Gastrointestinal tract
absorption of cyanocobalamin and intrinsic factor in guinea pig intestine, 370
absorption of fatty acids after ileectomy, 488
active glucose transport in small intestine of hamster and effect of thyroid hormone, 1376*
chromatographic patterns of gastric juice, 660
colon, mouse, epithelial cell proliferation and migration, 141
effect of dietary gluten alterations on jejunal mucosa in nontropical sprue, 1344*
effect of folic acid deficiency on B_{12} absorption, 532
fat absorption and fatty acid esterification, 1412*
fat absorption in intestinal mucosa, 1399*
human mucosa, cell proliferation kinetics, 1380*
intestinal disaccharidases, 463
intragastric Na-H exchange mechanism in man, 1380*
iron absorption in mice, 344
mechanism of intestinal absorption of bilirubin, 1379*
methotrexate-induced intestinal epithelial damage, 1404*
protein metabolism in intestinal epithelial cells, 646
response of esophagus to curare and atropine, 1369*
small intestine serosal absorption of intraperitoneal injection of iron, 1206
transport of iron in surviving rat intestinal segments, 1368*
Gel filtration
protein binding of corticoids, 816
Genetic code
characteristics of, 1369*
Genetics
lipoprotein polymorphism, human, 1936
Glass electrode
determination of sodium in body fluids, 1385*
Gliadin
oral administration of in celiac disease and abnormal rise of plasma amino acids, 1374*
Globin synthesis
and increased erythropoiesis in man, 1389*
Glucagon
effects in glycogen storage disease, 1099
endogenous, measurement of and influence of blood glucose on secretion of, 682
endogenous, role in blood glucose regulation in man, 1406*
Glucose
active transport in small intestine of hamster, effect of thyroid stimulation, 1376*
blood, regulation by endogenous glucagon, 1406*
effect on pancreatic insulin release, 289
effect on secretion of endogenous glucagon, 682
metabolism
and differential "aging" in bone, 1389*
and insulin release, 1372*
and methylene blue, 1446
in normal and fava bean-sensitive erythrocytes, 1446
oxidation, depression of in rat heart by palmitate and acetoacetate, 1385*
Glucose-6-phosphate dehydrogenase
deficiency, and abnormal pathway of steroid metabolism, 1346*
deficiency, and diisopropyl fluorophosphate^{32} erythrocyte survival studies in Negro females, 1348*
electrophoretic heterogeneity and its relationship to enzyme deficiency, 1347*
in vitro interconversion of 16-C^{14}-estrone and 16-C^{14}-estradiol-17β in normal subjects and from subjects with deficiency of erythrocyte activity of, 2025
Glucose-U-C^{14}
effect of acetate and pyruvate in rat heart, 1401*
effect of osmolality and sodium concentration on metabolism of by rabbit kidney cortex and medulla, 1377*
Glutathione
importance of conjugation on BSP transport from blood to bile, 1351*
Gluten
effects of dietary alterations in jejunal mucosa in nontropical sprue, 1344*
Glycogen storage disease
effects of glucagon on, 1099
Glycolysis
in red blood cell metabolism, 1249
Glyoxylate metabolism
primary hyperoxaluria, 1358*
Gonadotropin
serum, evaluation of, as measure of placental adequacy, 1998
Gout
accelerated turnover of phosphoribosylpyrophosphate in, 1805
arthritis of, acute, and action of colchicine on, 1399*
impairment of uric acid excretion in, 1955
renal excretion of uric acid, 1094
uric acid metabolism, 623
Granulocytes
transfusion from donors with chronic myelocytic leukemia to leukopenic recipients, 1359*

Granulocytosis
steroid, mechanism of, 1342*
Growth
influence on total urinary hydroxyproline, 1368*
relationship between urinary hydroxyproline and, 1928
Growth hormone
human, effects on tubular phosphate transport, renal plasma flow and glomerular filtration rate, 1230
from human pituitary glands, 1407*
human, radioimmunoassay, 254
metabolism in man, 262
Guanethidine
adrenomedullary effects of, 1342*

H

Hageman factor
acceleration of thrombus formation, 1199
Hair roots
human, rate and kinetics of cellular reduplication, 1407
Harderian gland
radiosulfate incorporation into, effect of TSH and exophthalmic serum, 1363*
Heart failure
congestive, venous pressure rise with exercise in, 2020
Heart rate
chlorothiazide and norepinephrine effects, 1578
Heart tissue
depression of glucose oxidation in rat heart by acetoacetate and palmitate, 1385*
human, immunologic relationship of Group A streptococcal cell walls, 1370*
rat, effect of acetate and pyruvate on metabolism of glucose-U-C^{14} and palmitate-1-C^{14} in, 1401*
Hemodialysis
periodic, in patients with terminal uremia, 1398*
Hemoglobin
"Bart's," relationship to α-thalassemia, 1409*
chronic unconjugated hyperbilirubinemia with increased production of bile pigment, 1341*
and formation of bilirubin, 1628
iron, absorption of, 1897
synthesis, a protein intermediate, 1116
synthesis and red cell maturation in megaloblastic anemia, 1086
synthesis, mechanism of puromycin inhibition by rabbit reticulocyte ribosomes, 1340*
Hemoglobinuric renal failure
acute, without ischemia, 1361*
Hemolysis
effect of sulfhydryl inhibition on, 779
Hemorrhagic tendency
thrombocytopenic, effect of soybean phosphatides on, 770
Hepatic blood flow
arterial, determination of during surgery, 447
and cardiac output, effect of endotoxin on, 1387*
effect of side-to-side portacaval shunt in cirrhosis, 1242
estimation with indocyanine green, 1169
Hirsutism
and urinary 17-ketosteroid conjugates, 1690
Histamine
antigenic, released from human leukocytes, effects of humoral factors on, 1407*
and seratonin, elevated blood levels and clinical syndromes, 1364*
Hodgkin's disease
studies on delayed hypersensitivity in, 1964
Homografts
achievement with selective lymphatic irradiation, 1412*
skin
gross changes in rejection of, 411
histologic sequence of events in rejection of, 420
Humoral stimulation
adrenocorticotrophin hormone secretion, 1606
Hyaluronate
synovial fluid, unusual properties in rheumatoid arthritis, 1363*
Hyaluronateprotein
isolation of, from human synovial fluid, 1817
Hydantoin
displacement of thyroxine from human TBG by analogues of, 2213
Hydrochlorothiazide
antidiuretic effect of, on patients with vasopressin-resistant diabetes insipidus, 1988
Hydrogen ion
acidifying capacity of experimentally diseased dog kidneys, 1297
effect on pulmonary circulation, 1492
inhibition of renal secretion by K^+, 611
pH gradients between ECF and bone surface, 1163
Hydropenia
effects of salt depletion on concentrating operation in, 1402*
effects of salt restriction on the renal concentrating operation in, 2101
2-(α-Hydroxybenzyl)-benzimidazole (HBB)
selective inhibition of enterovirus nucleic acid synthesis, 1356*
17-Hydroxy-pregnenolone
conversion to cortisol, 1584
17-Hydroxy-pregnenolone-H^3
incorporation into cortisol by adrenal gland, 1388*
Hydroxyproline
formation of by cartilage, 1353*
total urinary, as an index of connective tissue turnover in bone, 1355*
total urinary, influence of growth on, 1368*
urinary, relationship between growth and, 1928
3β-Hydroxysteroid dehydrogenase
adrenogenital syndrome with deficiency of, 2086
Hyperaldosteronism (*See also* aldosteronism)
chronic hepatic congestion and, 884
Hyperbilirubinemia
chronic unconjugated, with increased production of bile pigment not derived from the hemoglobin of mature erythrocytes, 1341*
chronic unconjugated, without overt signs of hemolysis, 2233
Hypercalcemia
effect on state of calcium, phosphate, and other ions in plasma, 1454
renal K wasting, 1222
Hypercapnia
and acidosis, 1492
adaptive and recovery process as evaluated by provision of alkali, 2246
chronic, effects of, on electrolyte and acid-base equilibrium, 2246
Hypercholesterolemia
use of thyroxine analogs in treatment of, 696
Hypergammaglobulinemia
effect on albumin metabolism, 1564
Hyperinsulinism
and early obesity, 2173
Hyperlipemia
idiopathic, abnormal lipoprotein synthesis, 1389*
production by Triton WR-1339, 495
Hypermetabolism
and defect of mitochondrial respiratory control, 1776
Hyperoxaluria
primary, a defect in glyoxylate metabolism, 1358*
Hypersensitivity
delayed, in Hodgkin's disease, 1964
to staphylococcal filtrates producing fever in rabbits, 1346*
Hypertension
acute and susceptibility to pyelonephritis, 1400*
antihypertensive principle from renal medulla, 1387*
blood levels of angiotensin in, 1360*
digital hemodynamics and venomotor tone, 1388*
diminished angiotensin II half-life in, 1365*
effect on cholesterol synthesis in rats, 1340
effect of vasoconstrictor agents on renal and systemic circulations, 203

entrance of albumin into aortic wall, 1537
essential, congenitally induced in rats, 710
portal, effect of side-to-side portacaval shunt on hepatic hemodynamics, 1242
relation to aldosterone secretion, 378
of renal origin, relationship of angiotensin to, 1386*
systolic and effect of exercise on ventricular ejection rate, 1050

Hyperthyroidism
effect on state of calcium, phosphate, and other ions in plasma, 1454
induction of acute iodine depletion, 1343*

Hyperuricemia
renal excretion of uric acid, 1094

Hyperventilation
and cerebral circulation, 1664

Hypoalbuminemia
postural changes in plasma volume, 1357*

Hypogammaglobulinemia
produced by 6-thioguanine in patients with nephrosis, 1413*

Hypoglycemia
alcoholic, pathogenesis and clinical features, 1359*
effect on glucagon secretion, 682
effect of ketone bodies, 1383*
ethanol-induced, mechanism of, 1357*
insulin induced, genesis of ketosis in, 758
L-leucine induced, 654
production of by extracts from sarcomatous tumors, 1403*

Hyponatremia
in acute porphyria, inappropriate secretion of ADH, 1381*
cerebral, abnormal neural regulation of vasopressin and aldosterone secretion, 1354*
effects on sodium and potassium excretion, 850

Hypophysectomy
and aortic constriction, 1503

Hyposthenuria
and the sickling phenomenon, 1391*

Hypotension
acute, cardiovascular actions of corticosteroids in patients with, 1396*

Hypothermia
DC and AC defibrillation, 1378*

Hypoxemia
in alveolar-capillary block syndrome, 618

Hypoxia *See* oxygen

I

Immunization
maternal, against fetal platelets, 1059
primary, artificial against Group A *Streptococci*, 301

Immunoglobulin
levels in children and in deficiency states, 2054

Immunologic phenomena
anatomic structure of lymphatic tissues and immune function, 1351*
antigenic relation of urinary proteins to plasma gamma globulin, 1190
Group A streptococcal cell wall antigen and relationship to human heart tissue, 1370*
humoral factors in transplantation, 1413*
hypersensitivity to staphylococcal filtrates producing fever in rabbits, 1346*
immune adherence and Coombs + red cell eluates in acquired hemolytic anemia and chronic lymphatic leukemia, 471
immunologically discrete components to renal calculous matrix, 1180
maternal isoantibodies responsible for neonatal purpura, 1059
prevention of Rh hemolytic disease, 1358*
primary artificial immunization against Group A *Streptococci*, 301
rheumatoid factor, complement and conglutinin in subacute bacterial endocarditis, 666
role of thymus in, 1361*
studies with intrinsic factor in man, 1370*

Indicator dilution curves
analog computer extrapolation, 1343*

Indicator fractionation technique, 1429

Indocyanine green
estimation of hepatic blood flow, 1169

Indole-3-acetic acid
production of peripheral hypoglycemia via extra-pancreatic mechanism, 289

Infections
arbovirus in Puerto Rican children and obscure neurological syndromes, 1400*
experimental, effects of alcohol on in mice, 1381*
experimental pneumococcal, mechanism of death in, 1392*
experimental vaccinia, properties of transferable pyrogen in, 1397*
host defenses against, purification of serum proteins associated with antibacterial action by dextran gel filtration, 1408*
urinary tract, relation of fecal flora to, 1408*

Infectivity
of Group A *Streptococci* during acute pharyngitis and carrier state, 575

Inosine
effect of, on survival of stored erythrocytes, 690

Insulin
action in the forearm of man, dissociation of, 1393*
-binding antibodies and effect on insulin excretion in diabetics with nephrotic syndrome, 1392*
effect on carbohydrate and potassium metabolism, 108
effects of glucose, sulfonylureas, salicylate and indole-3-acetic acid on secretion of, 289
hypoglycemia and genesis of ketosis, 758
intra-arterial administration of and quantitative role of free fatty acids in metabolism of forearm muscle in man, 2191
intra-arterial response of, in obesity, 2173
metabolism of and placental transfer, 29
production of L-leucine induced hypoglycemia, 654
release and glucose metabolism, 1372*

Insulin-like activity
measurement of, in rat adipose tissue after pancreatectomy, 1699

Intestinal absorption, 1754

Intragastric H^+ concentration
regulation and evidence of a Na-H exchange mechanism in man, 1380*

Intrinsic factor
antibody to in pernicious anemia, 1106
and cyanocobalamin, intestinal absorption, 370
exchange between free and intrinsic factor-bound vitamin B_{12}, 1354*
immunologic studies in man, 1370*

Iodine
effect of Lugol's solution on disappearance of organic I^{131} from hyperfunctioning thyroid adenomas, 173
excretion in the stool during pancreatic steatorrhea, 988
induction of acute depletion and response in normal subjects and in patients with Graves' disease, 1343*

Iodine^{131}
-albumin, studies of catabolism and distribution in male adults, 1312
disappearance studies from hyperfunctioning thyroid adenomas, 173
-labeled growth hormone, 262
-labeled thyroxine in measurement of free hormone, 1031
placental transfer, 32

Iodine, protein-bound
evaluation of, as measure of placental adequacy, 1998
serum concentration in early fetus, 1070

Iodo^{131}-antipyrine
and measurement of cephalic blood flow, 1429

5-Iodo-2′-deoxyuridine
and thymidine, 1484

Iron
absorption of hemoglobin, 1897
absorption, regulation of in experimentally produced hypoplastic and iron-deficiency anemia, 1384*
combination with globin molecule in hemoglobin synthesis, 1116
radioactive Fe^{59} absorption in mice, 344
RBC uptake, effect of erythropoietin and testosterone *in vitro*, 1357*
a second iron-binding system in plasma, 1354*
serosal small intestine absorption after intraperitoneal injection, 1206
transport in intestinal segments, 1368*
Isoproterenol
effect on myocardial function in man, 1374*
Isotope counting
external, measurement of cerebral blood flow by, 2221

K

Ketone bodies
hypoglycemic effect, 1383*
Ketosis
genesis of during insulin hypoglycemia, 758
Kidney
active chloride reabsorption, 101
acute hemoglobinuric renal failure without ischemia, 1361*
aldosterone stimulating factor, 505
back-diffusion of NH_3, 1413*
bidirectional release of ammonia in metabolic and respiratory alkalosis in cirrhotics, 1139
calcium and sodium reabsorption, interdependence of, 1394*
cortex and medulla, effect of osmolality and sodium concentration on metabolism of glucose-U-C^{14}, 1377*
countercurrent mechanism, operation during water diuresis, 1401*
depression of phagocytosis by solute concentrations of, 1945
dog, artificially diseased, acidifying capacity of, 1297
dog, experimentally diseased, bicarbonate reabsorption, 1303
effects of growth hormone on, 1230
electrolyte composition in medulla during water diuresis, 1145
excretion of uric acid in gout, 1094
immunologically discrete components to renal calculous matrix, 1180
kinetics of renal urate transport, 1377*
mechanism of inhibitory influence of K^+ on renal H^+ secretion, 611
mechanisms of renal acidosis, 1361*
nephron, enzyme activity in healthy and acidotic dogs, 1392*
presence of gamma globulin and complement in kidneys of patients with glomerulonephritis, lupus nephritis and diabetic nephropathy, 328
primary hyperoxaluria, 1358*
proximal tubular fluid, osmolality, pH, and inulin concentration, 1350*
pulse, bipolar electrodes for measurement of, 1370*
rat, competitive inhibition of dibasic amino acid transport, 1394*
reactivity of renal circulation to vasoconstrictor agents, 203
renal effects of glucocorticoids in cirrhosis, 1368*
renal hemodynamic effects of mannitol infusion, 1347*
renal hemodynamics and cardiac output in decompensated Laennec's cirrhosis, 1375*
renal hypertension, relationship of angiotensin to, 1386*
renal medulla and antihypertensive principle, 1387*
renal responses in primary aldosteronism, 1345*
renal tubular secretion and reabsorption of organic bases, 793
renal water and solute excretion in Laennec's cirrhosis, 594
role of renin-angiotensin system in aldosterone secretion, 378
sodium reabsorption and potassium excretion, 850
sodium reabsorption, intrinsic renal regulation, 1372*
tubular reabsorptive and secretory defect in cystinuria, 281
uric acid stone formation, metabolic defect, 537
vitamin D, nephrocalcinosis and renal K wasting, 1222
water diuresis in Addisonian patients by expansion of extracellular fluid, 1078
Kwashiorkor
intracellular ions and biologic functions, 1384*

L

Lactic dehydrogenase (LDH)
activity as a metabolic basis for cell survival during hypoxia, 1341*
isozymes of, their alterations in arthritic synovial fluid and sera, 2012
Left-to-right shunts
detected by oximetric inert gas technic, 1414*
L-Leucine
hypoglycemia, 654
Leukemia
chronic lymphatic, reactivity of red cell eluates in, 497
chronic myelocytic, measurements of leukocyte intracellular pH, 1345*
effects of leukocyte respiration in, 1382*
leukemic cell proliferation and DNA synthesis, 360
nucleic acid metabolism, 67
pyridine nucleotides in leukemic leukocytes, 230
studies of certain antimetabolites and pyrimidine nucleotide synthesis, 871
transfusion of granulocytes from donors with chronic myelocytic leukemia to leukopenic recipients, 1359*
Leukocytes
alkaline phosphatase, a chromosome marker in Mongolism, 1341*
cellular infiltration in skin homograft rejection, 420
effect of amethopterin on induction of dihydrofolic reductase activity in, 1344*
intracellular pH in chronic myelocytic leukemia, 1345*
leukemic, metabolism of adenine-8-C^{14} and formate-C^{14}, 67
leukemic, metabolism of 6-mercaptopurine in, 1398*
nucleotide levels in leukemia, 230
respiration in leukemia, 1382*
regulatory mechanisms of metabolisms, 1376*
release of antigenic histamine and effects of humoral factors on, 1407*
response to purified bacterial endotoxin, 162
transfusion of granulocytes from donors with chronic myelocytic leukemia to leukopenic patients, 1359*
Lipase
lipoprotein, 1531
Lipemia
alimentary, measurement of fat particles in plasma during, 2254
cardiovascular lesions and changes in blood coagulation and fibrinolysis in rat, 1708
Lipid metabolism
adipose tissue changes on "stuff and starve" feeding programs in rats, 245, 250
changes in nephrotic syndrome, 185
effect of ethanol induced fatty liver on the transport of triglyceride fatty acids from liver to plasma, 1344*
fat absorption in intestinal mucosa, 1399*
heterogeneity of particulate fat in plasma, 1345*
influence of dietary protein on, 1007
newer lipids of human serum, cerebrospinal fluid and tissues, 1405*
origin in experimental atherosclerosis, 828
participation of endogenous lipids in the formation of dietary chylomicrons, 1359*

peroxidation by rat adipose tissue: some hormonal, metabolic and nutritional influences, 1288
plasma transport in dogs treated with Triton WR-1339, 495
transport in tissues, 1366*
Lipids
plasmalogen injection in rabbits, 2160
Lipolysis
and lipid peroxidation, 1288
Lipoproteins
and atherosclerosis, 1537
high density, further characterization of, 1681
human polymorphism, 1936
plasma, metabolism in perfused rat livers, 842
Lipoprotein synthesis
abnormal, in idiopathic hyperlipemia, 1389*
Liver
conjugation of BSP in newborns, an insufficiency of secretion, 1013
DNA synthesis, 1378*
dynamic dilution studies of substances (RBC, albumin, sucrose, inulin, sodium) passing through the portal circulation, 1362*
effect of ethanol-induced fatty liver on the transport of triglyceride fatty acids from liver to plasma, 1344*
ethanol metabolism, 955
fatty acid synthesis, 860
glycogen, metabolic changes on "stuff and starve" feeding programs in rats, 245, 250
importance of conjugation with glutathione on BSP transport from blood to bile, 1351*
lipoprotein metabolism, 842
maturation of BSP-glutathione conjugating system, 750
mechanism of ethanol-induced hypoglycemia, 1357*
metabolism of aldosterone, 884, 1672
normal and alloxan-diabetic rats, generation of reduced pyridine nucleotides, 1362*
role in clearance of blood coagulation Product I, 1402*
taurocholate secretion and bile production, 1152
urocanic acid excretion after oral histidine, 1472
in vitro preparation of, for use in comparison of metabolism of desmosterol and cholesterol, 2135
Liver disease
bidirectional renal release of ammonia in metabolic and respiratory alkalosis in cirrhotics, 1139
chronic hepatic venous congestion and effect on aldosterone metabolism, 884
cirrhosis, effect of side-to-side portacaval shunt on hepatic hemodynamics, 1242
experimental, proportions of sulfate and glucuronide conjugates of bilirubin, 133
Laennec's cirrhosis, renal water and solute excretion, 594
Lymph
use in measurement of gas tensions in interstitial fluid and tissues, 1971
Lymphatic irradiation
achievement of homografts, 1412*
Lymphatic tissue
anatomic structure and immune function, 1351*
Lymphocytoid marrow cells
cytoplasmic localization of macroglobulin in Waldenström's macroglobulinemia, 1377*
Lysokinase
active Hageman factor in fibrinolytic system, 1277
Lysosomes
effect of cortisone and endotoxin, 1410*

M

Macroglobulin
cytoplasmic localization in lymphocytoid marrow cells, in Waldenström's macroglobulinemia, 1377*
Macroglobulinemia
in adults, 1415
in infants and older children, 1422
and sulfhydryl compounds, 1422
Magnesium
experimental depletion, 1411*
Mannitol
effects on renal hemodynamics, 1347*
Matrix
renal calculous, immunologically discrete components to, 1180
Megaloblast
in pernicious anemia, 1086
Megaloblastic anemia
red cell maturation and hemoglobin synthesis, 1086
Meninges
production of meningitis by cisternal puncture during pneumococcal bacteremia in dogs, 320
Meningitis
pneumococcal, pathogenesis of, 311, 320
6-Mercaptopurine
inhibition of purine synthesis, 1383*
metabolism in human leukemic leukocytes, 1398*
Metabolic alkalosis
association with K deficiency and role of chloride on recovery from, 219
and effects on bidirectional renal release of ammonia in cirrhotics, 1139
Metabolic clearance rate
of aldosterone, in pregnant and nonpregnant subjects using single-injection and constant-infusion methods, 2093
Metabolism
quantitative role of free fatty acids of forearm muscle, 2191
Metaraminol (Aramine)
changes in renal water and solute excretion, 594
Methotrexate
intestinal epithelial damage demonstrated by electron microscopy, 1404*
Mitochondria
effects of antibodies on, 2142
hypermetabolism in skeletal muscle, 1776
oxidative phosphorylation and respiratory control in thyroid, 1725
relationship of cations and ATP to swelling and shrinkage of, 1358*
Mitral insufficiency
characteristics and performance of left ventricle, 1343*
Mitral stenosis
myocardial oxygen extraction, 725
Mongolism
leukocyte alkaline phosphatase as a chromosome marker, 1341*
Mucopolysaccharides
fate of injected, 743
Mucoprotein
urinary, abnormality in cystic fibrosis, 455
Muller phenomenon
antistaphylokinase as an inhibitor of, 92
Muscle
mammalian, effect of amino acids on K metabolism, 480
Muscular dystrophy
childhood, abnormal myoglobin chromatography, 1391*
Myocardial infarcts
visualization *in vivo* by scanning, 1349*
Myocardial lactate
and pyruvate metabolism, 2075
Myocardium
electrical defibrillation and lipoprotein lipase activity, 1531
function in man, effect of isoproterenol, 1374*
infarction and lipoprotein lipase activity, 1531
massage and lipoprotein lipase activity, 1531
metabolism of during epinephrine-induced necrosis, 1393*
oxygen extraction, 725
Myoglobin
abnormal chromatography of in muscular dystrophy, 1391*

N

Natriuresis
and diuresis in patients with ascites and cirrhosis, 1375*
Neonatal thrombocytopenic purpura
reactions of maternal isoantibodies, 1059
Nephron
enzyme activity in healthy and acidotic dogs, 1392*

Nephrosis
production of hypogammaglobulinemia by administration of 6-thioguanine, 1413*
Nephrotic syndrome
in diabetes, effect of insulin-binding antibodies on insulin excretion, 1392*
etiology of hyperlipemia, 185
Neurohypophysis
hormones of and action on the amphibian urinary bladder, 1393*
Nonenteric infections
Escherichia coli, 1760
Noradrenaline
adrenomedullary effects of guanethidine, 1342*
production of acute hypertension and increased susceptibility to pyelonephritis, 1400*
sympathoadrenal response to gravitational stress, 197, 203
and tyramine, effect of reserpine on vascular responses of forearm, 1340*
Norepinephrine
and chlorothiazide, 1578
Nucleic acids
action of testosterone on synthesis of, 153
adenine and role in red cell preservation, 351
DNA synthesis and cell population kinetics of colonic mucosa, 141
DNA synthesis and leukemic cell proliferation, 360
effect of adenosine derivatives on ion transport and energy metabolism in toad bladder, 1353*
enterovirus, selective inhibition of by 2-(α-hydroxybenzyl)-benzimidazole, 1356*
hepatic DNA synthesis, 1378*
mechanism of puromycin inhibition of hemoglobin synthesis by rabbit reticulocyte ribosomes, 1340*
a "messenger"-like RNA in mammalian cells, 1365*
metabolism in leukemic leukocytes, 67
nongenetic nature of serum cholesterol alteration by, 1397*
"pseudofeedback" inhibition of purine synthesis by 6-mercaptopurine and other purine analogs, 1383*
pyrimidine metabolism in man, 871
pyridine nucleotide levels in leukemic leukocytes, 230
relationship of cations and ATP to mitochondrial swelling and shrinkage, 1358*
Nucleosides
5-iodo-2′-deoxyuridine, 1484
pyrimidine, 1546
thymidine, 1484
Nucleotides
phosphoribosylpyrophosphate, a precursor of, in gout, 1805
purine, 1805

O

Obesity
effect of "stuff and starve" diet on adipose tissue and liver glycogen, 250
forearm metabolism in, 2173
Organic bases
renal tubular secretion and reabsorption of, in the dog, 793
Orotic acid
metabolism, 1546
and pyrimidine synthesis, 1546
RNA turnover rate, 1546
Osteoporosis
quantitative differences in production of by corticoids, 1356*
Oxidation
fatty acids, by peripheral tissues, 677
Oxidative phosphorylation
in skeletal muscle mitochondria, 1776
in thyroid mitochondria, 1725
Oximetric inert gas technic
to detect left-to-right shunts, 1414*
Oxygen
hypoxia
chemoreceptor activity, 1553
functional differences in LDH activity as a metabolic basis for cell survival, 1341*
and myocardial contractile force, 1553
pulmonary arterial pressure response, 1211
and pulmonary vasoconstriction, 1492
and systemic arterial system, 1553
and systemic venous system, 1553
tension, use of lymph for measurement of, 1971
uptake in malnourished infants, 1653
Oxygen breathing
effects on blood oxygen tension, 1125
effects on heart rate and blood pressure before and after atropine, 126
effects on hemodynamics in left ventricular failure, 1353*
production of hypoventilation, 335
Oxygen tension
continuous measurements of, 1125

P

Palmitate
and acetoacetate, depression of glucose oxidation in rat heart, 1385*
-1-C^{14}, effect of acetate and pyruvate in rat heart, 1401*
Pancreas
effects of glucose, sulfonylureas, salicylate and indole-3-acetic acid on insulin secretion, 289
exocrine secretion, effect of pancreozymin on, 1405*
protein binding of proteolytic enzymes, 972
thyroxine metabolism in pancreatic steatorrhea, 988
urinary mucoprotein abnormality in cystic fibrosis, 455
Pancreatectomy
measurement of insulin-like activity after, 1699
Pancreozymin
effect on pancreatic exocrine secretion, 1405*
Parathyroid extract
effect on renal tubular calcium reabsorption in the dog, 2151
Parathyroid hormone
effect on bone collagen metabolism *in vitro*, 1369*
Penicillin
antibody formation, 588
Pernicious anemia
antibody to intrinsic factor, 1106
chromatograms of achlorhydric gastric juice specimens in subjects with, 1410*
red cell maturation and hemoglobin synthesis, 1086
vitamin B_{12}-folic acid interrelation, 1263
pH
See hydrogen ion
Phagocytosis
depression of, by solutes in concentrations found in the kidney and urine, 1945
Phenolic hydroxyl group
of thyroxine, role in serum albumin binding, 1403*
Phenylalanine
metabolism in phenylketonuria and incorporation into proteins, 61
Phenylketonuria
phenylalanine metabolism in, 61
Phosphate
action of growth hormone on renal tubular transport, 1230
and calcium intake, effect on radiostrontium absorption in mice, 1398*
Phospholipids
effect of dietary protein on, 1007
erythrocyte, fatty acid composition of in anemic patients, 1352*
Phosphoproteins
effects on acid balance, 637
Phosphoribosylpyrophosphate
accelerated turnover, in gout, 1805
Phosphorus
in acidosis, 1454
in hypercalcemia, 1454
in hyperthyroidism, 1454
in renal failure, 1454
uptake of P^{32} into DNA of normal and leukemic cells, 360
Pituitary gland
cytological location of ACTH in, 1720
hormones of neurohypophysis and action on the amphibian urinary bladder, 1393*
preparation of human growth hormone, 1407*
role in ketonemia during insulin hypoglycemia, 758

Placenta
insulin transfer, 29
transfer of inhibitor of antistaphylokinase, 92
Plasma
ACTH levels, 20, 1599
active Hageman factor in fibrinolytic system, 1277
disappearance rates of estrins after delivery of placenta, 1382*
heterogeneity of fat particles in, during alimentary lipemia, 2254
heterogeneity of particulate fat in, 1345*
human growth hormone levels, 262
17-hydroxycorticosteroid levels, 1599
influence of dietary protein on plasma lipids, 1007
lipoprotein metabolism, 842
measurement of endogenous glucagon, 682
protein binding of aldosterone, 884
protein binding of corticoids, 816
proteins, cortisol binding, 53
proteins, incorporation of phenylalanine in, 61
proteolytic states, pathogenesis of coagulation defect, 896
a second iron-binding system, 1354*
volume measurement in women by venous hematocrits, 2182
volume, postural changes in hypoalbuminemia, 1357*
Plasmalogen
fate of injected, in rabbits, 2160
Plasminoplastin
generation test, method for assessing Hageman factor, 1277
and Hageman factor in the human fibrinolytic system, 1277
Platelet phosphatides
activity in different clotting systems, 2198
fatty acid and fatty aldehyde composition of, 2198
Platelets
action of thrombin on, 543
effect of soybean phosphatides on thrombocytopenic hemorrhage, 770
fate of, 1388*
immunoreactions and neonatal purpura, 1059
loss of functional activity during storage, 1367*
metabolism and preservation, 1
preservation by freezing, 10
stored human, metabolic changes and viability, 1045*
Pneumococcus
artificial intrathecally produced meningitis in dogs, 311
development of meningitis during artificially produced bacteremia, 320
mechanism of death in experimental infection by, 1392*
Polioviruses
neutralizing antibody to, in normal urine, 805
Polynucleotides
natural and synthetic, antigenicity of, 1414*
Porphyria
acute, hyponatremia due to inappropriate secretion of ADH, 1381*
Portacaval shunt
side-to-side, effect on hepatic hemodynamics in cirrhosis, 1242
Portal circulation
studies of substances (RBC, albumin, sucrose, inulin, sodium) passing through, 1362*
Portal hypertension
effect of side-to-side portacaval shunt on hepatic hemodynamics in cirrhotics, 1242
Posture
effect on pulmonary blood flow, 949
Potassium
deficiency and metabolic alkalosis, role of chloride in correction of, 219
effect of insulin on, 112
effect of sodium concentration (serum) on excretion, 850
influence of amino acids on, in mammalian muscle, 480
measurements of K^+ exchange in separated renal tubules, 1349*
mechanism of inhibition of renal H^+ secretion, 611
renal wasting induced by vitamin D, 1222
total exchangeable, in healthy men of varying fat content, 1840
Potassium^{42}
as indicator in cephalic and cerebral blood flow, 1429
Pregnancy
distribution and metabolism of urea in, 1745
and metabolic clearance rates, 2093
and pulmonary diffusing capacity during rest and exercise, 1908
secretion of aldosterone and progesterone in, 1408*
TBG in pathologic, 1998
Δ-5-Pregnene-3β,17α,20α,21-tetrol
in 3β-ol-dehydrogenase deficiency, 1346*
Progesterone
secretion in pregnancy, 1408*
Protein metabolism
binding of corticoids, 816
binding of cortisol, 53
binding of pancreatic proteolytic enzymes, 972
chromatographic patterns of gastric juice, 660
combination of iron and globin molecule in hemoglobin synthesis, 1116
influence of dietary protein on plasma lipids, 1007
in intestinal epithelial cells, 646
lipoprotein transport in dogs treated with Triton WR-1339, 495
lipoproteins and effect of cholesterol on protein synthesis, 842
nonhemoglobin erythrocytic, method of electrophoretic separation, 579
phenylalanine and, 61
relationship of increased erythropoiesis to globin synthesis in man, 1389*
synthesis, action of testosterone on, 153
thyroxine-protein interaction in human fetuses, 1070
Proteinuria
gamma globulin excretion characteristics, 1638
Proteolytic enzymes
pancreatic, protein binding of, 972
Proteolytic fragments
of rabbit agglutinating antibodies, 2123
Proteolytic state
pathogenesis of coagulation defect, 896
Pulmonary circulation
catecholamine pressor response to acute hypoxia, 1211
chemoreceptors for regulation of respiration, 1396*
effect of hydrogen ion concentration, 1492
effect of posture on capillary blood flow, 949
nature of pulmonary capillary blood flow and gas exchange, 1386*
new method for measuring pulmonary circulation time using liquid ether, 390
N_2O method of determining instantaneous pulmonary capillary blood flow in man, 401
regional function study with xenon^{133}, 519
studies on alveolar-capillary block syndrome, 618
Pulmonary diffusing capacity
during rest and exercise, 1908
Pulmonary disease
and pulmonary diffusing capacity during rest and exercise, 1908
Pulmonary emboli
experimental, and pulmonary function, 1402*
Pulmonary function
and experimental autologous pulmonary emboli, 1402*
Purine nucleotide
phosphoribosylpyrophosphate, a precursor of, in gout, 1805
Puromycin
inhibition of hemoglobin synthesis by rabbit reticulocyte ribosomes, 1340*
Pyelonephritis
increased susceptibility to during acute hypertension induced by vasoconstrictor agents, 1400*
Pyridine nucleotides
levels in leukemic leukocytes, 230
generation in livers of normal and alloxan-diabetic rats, 1362*
Pyridoxine
familial pyridoxine-responsive anemia, 1352*

Pyrimidine
metabolism in man, 871
metabolism and biosynthesis in man, 1409*
Pyrogen
transferable, properties in experimental vaccinia infection, 1397*
Pyruvate
effect on metabolism of glucose-U-C^{14} and palmitate-1-C^{14} in rat heart, 1401*
Pyruvate metabolism
and myocardial lactate, 2075

R

Radiochromium (Cr^{51})
measurement in women of red cell volume with, 2182
Red blood cells
and acanthocytes, interconversion with detergents, 1404*
acute renal effects of hemolyzed, in dogs, 2112
aryl amine acetylation, 1387*
carbonic anhydrase activity, 1373*
effect of amethopterin on induction of dihydrofolic reductase activity in, 1344*
effect of erythropoietin and testosterone on iron uptake *in vitro*, 1357*
effect of incubation with inosine, adenine and adenosine, 690
effect of sulfhydryl inhibition on, 1514
effect of sulfhydryl inhibition and mechanism of hemolysis, 779
enzymes, separation from hemoglobin, 1257
fatty acid composition of RBC phospholipids in anemic patients, 1352*
genetic implications of DFP^{32}-erythrocyte survival studies in Negro females heterozygous for G-6-P dehydrogenase deficiency, 1348*
glucose metabolism, 1446
glycolytic enzymes and regulation of glycolysis, 1249
macrocyte survival after splenectomy, 1386*
nonhemoglobin proteins, 579
osmotic fragility of, 1766
pH with reference to intracellular acidosis in hereditary spherocytosis, 1349*
preservation, role of adenine in, 351
reactivity in acquired hemolytic anemia and chronic lymphatic leukemia, 471
retardation of sodium flux in, by aldosterone, 1403*
stored, agglutination by a serum factor, 1390*
stroma, metabolism and membrane transport of, 1397*
uptake of cortisol, 53
in vitro interconversion of 16-C^{14}-estrone and 16-C^{14}-estradiol-17 by, 2025
Red cell volume
measurement of, in women by radiochromium labeled cells, 2182
Renal blood flow
estimations of, with $krypton^{85}$, 2112
Renal concentrating operation
effects of salt restriction on, in normal, hydropenic man, 2101
Renal failure
effect on calcium, phosphorus and other ions, 1454
in Laennec's cirrhosis, 1922
Renal function
acute changes with administration of hemolyzed red blood cells, 2112
Renal hemodynamics
determination of, in cirrhosis, 1922
Renal perfusion pressure
studies by the "stop-flow" technique, 1404*
Renal tubular acidosis
result of hypercalcemia and hypercalciuria, 1222
Renal tubules
effect of parathyroid extract on calcium reabsorption in, 2151
proximal tubular fluid, osmolality, pH_2, and inulin concentration, 1350*
separated, measurements of K^+ exchange in, 1349*
Renin
aldosterone stimulating factor, 505
effect on biosynthesis of aldosterone, 715
role in secretion of aldosterone, 378
Reserpine
effect on vascular responses of forearm to tyramine and norepinephrine, 1340*
impairment of cardiovascular response to tyramine, 1382*
Respiration
Cheyne-Stokes, 42
control of,
in defective skeletal muscle mitochondria, 1776
in thyroid mitochondria, 1725
mechanism of O_2-induced hypoventilation, 335
nature of pulmonary capillary blood flow and gas exchange, 1386*
regulation of, by chemoreceptors, 1396*
tourniquet hyperpnea, its mechanism and modification by O_2, NH_4Cl, and aminophylline, 269
Respiratory alkalosis
and effects on bidirectional renal release of ammonia in cirrhotics, 1139
Reticulocytes
mechanism of puromycin inhibition of hemoglobin synthesis, 1340*
Reticuloendothelial system
clearance of circulating fibrin in Shwartzman reaction, 1378*
Rheovirus Type 2
infections caused by, 1379*
Rheumatoid arthritis
unusual properties of synovial fluid hyaluronate, 1363*
Rheumatoid factor
in subacute bacterial endocarditis, 666
Rh hemolytic disease
an approach to the prevention of, 1358*
Ribonucleic acid
turnover rate, 1546
Ribosomes
reticulocyte, mechanism of puromycin inhibition of hemoglobin synthesis by, 1340*

S

Salicylate
production of peripheral hypoglycemia via extra-pancreatic mechanisms, 289
Salmonella typhosa
endotoxin and its effects on coronary and peripheral vascular resistance, 147
Salt absorption
in colon, 1754
Salt restriction
effects of, on renal concentrating operation in man, 2101
Secretin
effect on relationship between taurocholate secretion and bile production, 1152
Seminal vesicle
site of action of testosterone on protein synthesis, 153
Seratonin
and histamine, elevated blood levels and clinical syndromes, 1364*
Serum
calcium concentration and pH gradients, 1163
factor that agglutinates stored erythrocytes, 1390*
free thyroxine concentration, 1031
identification of a folate compound, 1134
newer lipids of, 1405*
proteins and thyroxine-protein interaction in human fetuses, 1070
vitamin B_{12} binding, 1352*
Serum gonadotropin
evaluation of, as measure of placental adequacy, 1998
Shwartzman reaction
reticuloendothelial clearance of fibrin, 1378*
Sickling phenomenon
produced by hypertonic solutions, an explanation for the hyposthenuria of sicklemia, 1391*
Single-infusion method
use in estimation of metabolic clearance rate of aldosterone, 2093
Skeletal muscle
isolation of *d*-tubocurarine-binding protein, 1363*
Skin
frog, active "downhill" sodium transport, 1348*
Skin homografts
cross-reactions in man, 2166

Slow-reacting substance
anaphylactic and venom-induced, distribution and properties, 1385*
Sodium
action of ADH on in renal medulla, 1145
active "downhill" transport across isolated frog skin, 1348*
active renal transport, effect of renal perfusion pressure on, 1404*
and calcium reabsorption in the kidney, interdependence of, 1394*
depletion, effects on concentrating operation in hydropenic man, 1402*
determination of in body fluids by glass electrode, 1385*
effect of dietary levels on vasoconstriction, 203
effect of serum concentration on reabsorption, 850
flux, retardation of in erythrocytes by aldosterone, 1403*
Na-H intragastric exchange mechanism in man, 1380*
reabsorption, intrinsic renal regulation, 1372*
renal transport, and angiotensin II; production of natriuresis and diuresis in patients with cirrhosis and ascites, 1375*
short circuit current transport in toad bladder, 702
Solvent flow
water-water interaction in isolated turtle bladders, 1348*
Soybean phosphatides
effect on thrombocytopenic hemorrhage, 770
Spherocytosis
hereditary, genetic carriers of, 554
hereditary, human erythrocyte pH with special reference to intracellular acidosis, 1349*
Splanchnic oxygen consumption
effect of ethanol on, 955
effect of side-to-side portacaval shunt in cirrhosis on, 1242
Spleen
regulation of growth and sequestering function, 1367*
splenectomy, survival of macrocytes and erythrocytic stimulation, 1386*
Sprue (*See* celiac disease)
nontropical, rapid sequential changes in jejunal mucosa with alterations of dietary gluten, 1344*
tropical, prognosis of, 1400*
Staphylococci
filtrates of and hypersensitivity in rabbits, 1346*
Steatorrhea
absorption of fatty acids in, 488
Steroid hormones
action of androgen on genesis of, 1373*
cardiovascular actions in normal subjects and patients with acute hypotension, 1396
conversion of desmosterol into during triparanol therapy, 962
effect on lysosomes, 1410*
effect of prednisolone on course of pneumococcal meningitis in dogs, 311
identification of 3β,21-dihydroxy-5-pregnene-20-one disulfate in human urine, 981
incorporation of 17-hydroxy-pregnenolone-H^3 into cortisol by the adrenal gland, 1388*
mechanism of renal effects in cirrhosis, 1368*
mechanism of steroid granulocytosis, 1342*
metabolism, abnormal pathway in patients with glucose-6-phosphate dehydrogenase deficiency, 1346*
protein binding, 816
quantitative differences in osteoporosis-producing action of corticoids, 1356*
role of brain in steroidal inhibition of ACTH release, 1371*
uptake of cortisol by red blood cell, 53
Steroids
lithocholic acid, 1573
Stewart-Hamilton principle
measurement of central blood volume, 1375*
"Stop-flow" technique
to study the effect of renal perfusion pressure on the active transport of sodium out of distal tubular urine, 1404*
Streptococci
Group A, cell wall antigen and immunologic relationship to human heart tissue, 1370*
Group A, effect of climate on carrier state following infection, 568
Group A, infectivity during acute stage (pharyngitis) and during carrier state, 575
vaccine of cell walls and recall of type specific antibody, 301
Stroke volume
effect of exercise on, 1050
effect of posture on, 949
Strontium
radioactive, absorption in mice and effect of calcium and phosphate intake, 1398*
"Stuff and starve" feeding program
studies of adipose tissue and liver glycogen, 245, 250
Subacute bacterial endocarditis
rheumatoid factor, complement and conglutinin in, 666
Sulfhydryl compounds
effect on erythrocytes, 1514
and macroglobulinemia, 1422
Sulfhydryl inhibition
effects on red blood cell and mechanism of hemolysis, 779
Sulfobromophthalein
See BSP
Sulfonylurea
effect on pancreatic insulin release, 289
Sympathoadrenal response
effects of cyclopropane anesthesia, 604
effect of emotion and gravitational stress, 197
Synovial fluid
arthritic, alterations of isozymes of lactic dehydrogenase in, 2012
hyaluronate, unusual properties in rheumatoid arthritis, 1363*
isolation of hyaluronateprotein from human, 1817
Systemic circulation
arterial hypoxemia in alveolar-capillary block, 618
chemoreceptors for regulation of respiration, 1396*
continuous measurement of blood oxygen tension, 1125
digital hemodynamics in hypertension and venomotor tone, 1388*
effect of reserpine on vascular responses of forearm to tyramine and norepinephrine, 1340*
effects of oxygen breathing on, 126
effects of *Salmonella typhosa* endotoxin on, 147
and hypoxia, 1553
reactivity to vasoconstrictor agents, 203
right and left side, P_{CO_2} during CO_2 inhalations and exercise, 1360*

T

Taurocholate
secretion and bile production, 1152
Testosterone
and erythropoietin, effect on iron uptake by RBC *in vitro*, 1357*
influence on protein biosynthesis, 153
Thalassemia
alpha-, relationship to high levels of "Bart's" hemoglobin in infancy, 1409*
Theophylline
effect on water movement in toad bladder, 702
6-Thioguanine
production of hypogammaglobulinemia in patients with nephrosis, 1413*
Thorium
and a new coagulation factor, 1351*
Thrombin
action on platelets, 543
Thromboatherosclerosis
experimental, lipid and cholesterol in, 828
Thrombocytopenia
effect of soybean phosphatides on hemorrhagic tendency, 770
Thrombus formation
acceleration by certain fatty acids, 1199
thrombotic activity of activation product, 235
Thymidine
and 5-iodo-2'-deoxyuridine infusion, 1484
uptake of tritiated thymidine (H^3 TDR) into DNA of normal and leukemic cells, 360
Thymus
role in development of immunity, 1361*

Thyroid disorders
acute iodine depletion and response in normal subjects and in patients with Graves' disease, 1343*
cytotoxic autoantibody in Hashimoto's disease, 996
effect on cortisol binding by plasma proteins, 56
effect of iodide on hyperfunctioning thyroid adenomas, 173
Thyroid gland
oxidative phosphorylation and respiratory control in mitochondria from, 1725
Thyrotropic hormone (TSH)
action on carbohydrate metabolism in thyroid slices, 1375*
Thyroxine (thyroid hormones)
calorigenic effects of analogs of, 696
displacement of, from human thyroxine-binding globulin by hydantoin analogues, 2213
effect on active glucose transport in small intestine of hamster, 1376*
effect on collagen metabolism, 1371*
and exophthalmic serum, stimulation of radiosulfate incorporation into pig Harderian gland, 1363*
free, measurement of concentration in serum, 1031
metabolism of levo- and dextroisomers of, 1342*
metabolism in pancreatic steatorrhea, 988
metabolism of ring-labeled L-thyroxine-C^{14} in rat, dog and man, 1411*
role of ion size in thyroidal anion transport, 1413*
Thyroxine-binding
evaluation of, as measure of placental adequacy, 1998
Thyroxine-binding globulin
displacement of thyroxine from, by hydantoin analogues, 2213
Thyroxine-binding site
steric aspects of, 2213
Thyroxine turnover
and age in euthyroid man, 2065
Total body irradiation
effect on pneumococcal meningitis in dogs, 311
Tourniquet hyperpnea
production and modification by O_2, NH_4Cl, and aminophylline, 269
Transcortin
biological potential of, 1396*
Transfusion
of granulocytes from donors with chronic myelocytic leukemia to leukopenic patients, 1359*
Transplantation immunity
humoral factors in, 1413*
Triglyceride fatty acids
removal and distribution of, in chylomicrons, 1915
Triglycerides
effect of ethanol-induced fatty liver on the transport of triglyceride fatty acids from liver to plasma, 1344*
in plasma, effect of dietary protein, 1007
Triparanol
effect on cholesterol metabolism, 962
Trypsin
protein binding and proteolytic and esterolytic activity, 972
***d*-Tubocurarine-binding protein**
isolation from skeletal muscle, 1363*
Tularemia
laboratory-acquired, 1436
relapse and reinfection, 1436
Tyramine
effect of reserpine on cardiovascular response to, 1382
and norepinephrine, effect of reserpine on vascular responses of forearm, 1340*
Tumors
sarcomatous, production of hypoglycemia from extracts of, 1403*

U

Urea
distribution and metabolism of carbon-labeled, in pregnant primates, 1745
transport in central nervous system, 1373*
Uremia
electroencephalographic evaluation, 1372*
terminal, and periodic hemodialysis, 1398*
Uric acid (Urate)
effects of ethanol metabolism on serum concentration and urinary excretion in man, 1380*
and ethanol metabolism interrelation in man, 1863
excretion, 1955
impairment in g. ut, 1955
kinetics of renal transport, 1377*
metabolism in gouty and nongouty patients after administrations of glycine and NH_4Cl, 623
renal excretion in gout, 1094
stone formation, 537
Urinary 17-ketosteroids
in hirsutism, 1690
Urine
disappearance rates of estrins after delivery of placenta, 1382*
effect of growth on total urinary hydroxyproline, 1368*
gamma (globulin) related proteins, 1196
identification of 3β,21-dihydroxy-5-pregnene-20-one disulfate, 981
neutralizing antibody to polioviruses, 805
nondialyzable solids and immunologically discrete components to renal calculous matrix, 1180
phagocytosis in, 1945
Δ-5-pregnene-3β,17α, 20α, 21-tetrol in 3β-ol-dehydrogenase deficiency, 1346*
urinary total hydroxyproline as an index of connective tissue turnover in bone, 1355*
Urocanic acid
excretion,
after histidine, 1472
without histidine, 1472

V

Vaccinia
experimental infection, properties of transferable pyrogen in, 1397*
Vaginal smear
evaluation of, as measure of placental adequacy, 1998
Vasopressin
See antidiuretic hormone
Venomotor tone
and digital hemodynamics in hypertension, 1388*
Venous pressure
rise with exercise in congestive heart failure, 2020
Ventricle
determinants of dimensions in intact unanesthetized man, 1347*
ejection rate (left), effect of exercise, 1050
function, effects of cyclopropane anesthesia, 604
left, characteristics and performance in mitral insufficiency, 1343*
left, failure, hemodynamic consequences of O_2 breathing, 1353*
pressure, methods of determining first derivative, 80
Venules
metabolism as studied in the Cartesian diver, 1366*
Vitamin B_{12}
binding by normal human serum, 1352*
effect of folic acid deficiency on absorption of, 532
effect on red cell maturation time and globin synthesis in the primitive cell, 1086
exchange between free and intrinsic factor-bound vitamin B_{12}, 1354*
interrelations with folic acid, 1263
Vitamin D
and renal K wasting, 1222

W

Waldenström's macroglobulinemia
cytoplasmic localization of macroglobulin in lymphocytoid marrow cells, 1377*
Warfarin
metabolism of, 1390*
Water absorption
in colon, 1754
Water transport
osmotic water transfer across a vasopressin-sensitive and an artificial membrane, 1355*
water-water interaction during solvent flow in isolated turtle bladders, 1348*

X

Xenon^{133}
use in studying regional pulmonary function, 519

CONTENTS

NUMBER 1, JANUARY 1962

Platelet Preservation. I. Preservation of Canine Platelets at 4° C. PHIN COHEN AND FRANK H. GARDNER 1

Platelet Preservation. II. Preservation of Canine Platelet Concentrates by Freezing in Solutions of Glycerol Plasma. PHIN COHEN AND FRANK H. GARDNER 10

Adrenocorticotropic Hormone in Human Plasma. VERNON K. VANCE, WILLIAM J. REDDY, DON H. NELSON AND GEORGE W. THORN 20

The Role of the Human Placenta in the Transfer and Metabolism of Insulin. MARIA G. BUSE, WALTER J. ROBERTS AND JOHN BUSE 29

The Mechanism of Cheyne-Stokes Respiration. RAMON L. LANGE AND HANS H. HECHT 42

The *In Vitro* Red Blood Cell Uptake of C^{14}-Cortisol; Studies of Plasma Protein Binding of Cortisol in Normal and Abnormal States. ROBERT V. FARESE AND JOHN E. PLAGER 53

Phenylalanine Metabolism in the Phenylpyruvic Condition. II. An Attempt to Calculate the Daily Incorporation of Phenylalanine into Proteins. HANNS-DIETER GRÜMER, HANS KOBLET AND CAROL WOODARD 61

Human Leukocyte Metabolism *In Vitro*. I. Incorporation of Adenine-8-C^{14} and Formate-C^{14} into the Nucleic Acids of Leukemic Leukocytes. JAMES L. SCOTT 67

Studies on the First Derivative of the Ventricular Pressure Pulse in Man. WILLIAM L. GLEASON AND EUGENE BRAUNWALD 80

Demonstration of an Inhibitor of the Muller Phenomenon in Human Sera: Its Identification as Antistaphylokinase. PAUL G. QUIE AND LEWIS W. WANNAMAKER 92

Evidence for active Chloride Reabsorption in the Distal Renal Tubule of the Rat. FLOYD C. RECTOR, JR. AND JAMES R. CLAPP 101

Effect of Insulin on Carbohydrate Metabolism and on Potassium in the Forearm of Man. REUBIN ANDRES, MARCEL A. BALTZAN, GORDON CADER AND KENNETH L. ZIERLER 108

Heterogeneity of Forearm Metabolism with Special Reference to Free Fatty Acids. MARCEL A. BALTZAN, REUBIN ANDRES, GORDON CADER AND KENNETH L. ZIERLER 116

Effects of Oxygen Breathing on the Heart Rate, Blood Pressure, and Cardiac Index of Normal Men—Resting, with Reactive Hyperemia, and after Atropine. WALTER J. DALY AND STUART BONDURANT 126

Sulfate and Glucuronide Conjugates of Bilirubin in Experimental Liver Injury. LESLIE J. SCHOENFIELD, JESSE L. BOLLMAN AND HARRY N. HOFFMAN, II 133

Cell Population Kinetics in the Colon of the Mouse. MARTIN LIPKIN AND HENRY QUASTLER 141

Hemodynamic Alterations due to *Salmonella typhosa* Endotoxin with Special Reference to the Coronary Vascular Bed. EDWARD D. FROHLICH, JERRY B. SCOTT AND ELMO S. DOOLEY 147

Localization of the Biochemical Site of Action of Testosterone on Protein Synthesis in the Seminal Vesicle of the Rat. JEAN D. WILSON 153

Quantitative Studies of Human Leukocytic and Febrile Response to Single and Repeated Doses of Purified Bacterial Endotoxin. RICHARD C. MECHANIC, EMIL FREI, III, MAURICE LANDY AND WILLIE W. SMITH 162

The Effect of Iodide on the Rate of Release of I^{131} from Autonomous Thyroid Nodules. WILLIAM L. GREEN AND SIDNEY H. INGBAR 173

The Resorption of Sodium Dilantin-produced Dermal Collagen. J. C. HOUCK 179

Tissue Distribution of C^{14} after the Intravenous Injection of Labeled Free Fatty Acids and Chylomicrons in Nephrotic Rats. CLAUDE L. MALMENDIER 185

NUMBER 2, FEBRUARY 1962

Sympathoadrenal Response to Gravitational Stress. McC. GOODALL 197
Reactivity of Renal and Systemic Circulations to Vasoconstrictor Agents in Normotensive and Hypertensive Subjects. ERVIN A. GOMBOS, WILLIAM H. HULET, PIERRE BOPP, WILLIAM GOLDRING, DAVID S. BALDWIN AND HERBERT CHASIS 203
Factors Governing Correction of the Alkalosis Associated with Potassium Deficiency; the Critical Role of Chloride in the Recovery Process. E. LAURENCE ATKINS AND WILLIAM B. SCHWARTZ 218
Studies on Normal and Leukemic Leukocytes. III. Pyridine Nucleotides. ROBERT SILBER, BEVERLY W. GABRIO AND F. M. HUENNEKENS 230
The Thrombotic Activity of Activation Product. EDWARD S. HENDERSON AND SAMUEL I. RAPAPORT 235
Metabolic Adaptations to a "Stuff and Starve" Feeding Program. I. Studies of Adipose Tissue and Liver Glycogen in Rats Limited to a Short Daily Feeding Period. GUY HOLLIFIELD AND WILLIAM PARSON 245
Metabolic Adaptations to a "Stuff and Starve" Feeding Program. II. Obesity and the Persistence of Adaptive Changes in Adipose Tissue and Liver Occurring in Rats Limited to a Short Daily Feeding Period. GUY HOLLIFIELD AND WILLIAM PARSON 250
Studies on Human Growth Hormone. I. A Radio-immunoassay for Human Growth Hormone. ROBERT D. UTIGER, MARY L. PARKER AND WILLIAM H. DAUGHADAY 254
Studies on Human Growth Hormone. II. The Physiological Disposition and Metabolic Fate of Human Growth Hormone in Man. MARY L. PARKER, ROBERT D. UTIGER AND WILLIAM H. DAUGHADAY 262
Tourniquet Hyperpnea and its Modification by Agents which Alter Cerebral Blood Flow. JOSEPH C. ROSS, JOHN B. HICKAM AND REGINA FRAYSER 269
Inulin and Endogenous Amino Acid Renal Clearances in Cystinuria: Evidence for Tubular Secretion. GEORGE W. FRIMPTER, MELVIN HORWITH, EUGENE FURTH, ROBERT E. FELLOWS AND DAVID D. THOMPSON 281
Quantitative Effects of Glucose, Sulfonylureas, Salicylate, and Indole-3-Acetic Acid on the Secretion of Insulin Activity into Pancreatic Venous Blood. HOLBROOKE S. SELTZER ... 289
Recall of Type Specific Antibodies in Man by Injections of Streptococcal Cell Walls. ELIZABETH V. POTTER, GENE H. STOLLERMAN AND ALAN C. SIEGEL 301
Studies on the Pathogenesis of Meningitis. I. Intrathecal Infection. ROBERT C. PETERSDORF AND CHARLES N. LUTTRELL 311
Studies on the Pathogenesis of Meningitis. II. Development of Meningitis During Pneumococcal Bacteremia. ROBERT G. PETERSDORF, DAVID R. SWARNER AND MANUEL GARCIA 320
Gamma Globulin and Complement in the Diseased Kidney. P. FREEDMAN AND A. S. MARKOWITZ 328
Studies on the Mechanism of Oxygen-induced Hypoventilation. An Experimental Approach. THOMAS B. BARNETT AND RICHARD M. PETERS 335
On the Kinetics of Iron Absorption in Mice. DAVID GITLIN AND ANDRÉ CRUCHAUD 344
Adenine in Red Cell Preservation. ERNEST R. SIMON, ROBERT G. CHAPMAN AND CLEMENT A. FINCH 351
Leukemic Cell Proliferation as Determined by *In Vitro* Deoxyribonucleic Acid Synthesis. C. G. CRADDOCK AND G. S. NAKAI 360
Studies on the Absorption by Guinea Pig Intestine of Cyanocobalamin Incubated with Intrinsic Factor. BERNARD A. COOPER, WILLIAM PARANCHYCH AND LOUIS LOWENSTEIN 370
The Role of the Renin-Angiotensin System in the Control of Aldosterone Secretion. JAMES O. DAVIS, PHYLLIS M. HARTROFT, ELWOOD O. TITUS, CHARLES C. J. CARPENTER, CARLOS R. AYERS AND HERBERT E. SPIEGEL 378

Pulmonary Arterial Circulation Time, Pulmonary Arterial Blood Volume, and the Ratio of Gas to Tissue Volume in the Lungs of Dogs. KHALIL A. FEISAL, JORGE SONI AND ARTHUR B. DUBOIS 390
A Method for Estimating Instantaneous Pulmonary Capillary Blood Flow in Man. KARLMAN WASSERMAN AND JULIUS H. COMROE, JR. 401

NUMBER 3, MARCH 1962

The Rejection of Skin Homografts in the Normal Human Subject. Part I. Clinical Observations. DAVID C. MARSHALL, ELI A. FRIEDMAN, DONALD P. GOLDSTEIN, LAURENCE HENRY AND JOHN P. MERRILL 411
The Rejection of Skin Homografts in the Normal Human Subject. Part II. Histological Findings. LAURENCE HENRY, DAVID C. MARSHALL, ELI A. FRIEDMAN, GUSTAVE J. DAMMIN AND JOHN P. MERRILL 420
Determination of the Hepatic Arterial Blood Flow and Oxygen Supply in Man by Clamping the Hepatic Artery during Surgery. NIELS TYGSTRUP, KJELD WINKLER, KRESTEN MELLEMGAARD AND MOGENS ANDREASSEN 447
A Molecular Abnormality of Urinary Mucoprotein in Cystic Fibrosis of the Pancreas. MYLES MAXFIELD AND WILLIAM WOLINS 455
Specificity of the Human Intestinal Disaccharidases and Implications for Hereditary Disaccharide Intolerance. ARNE DAHLQVIST 463
Reactivity of Red Cell Eluates and Serums in Patients with Acquired Hemolytic Anemia and Chronic Lymphocytic Leukemia. JEROME I. BRODY 471
The Relation between Amino Acids and Potassium in Isolated Rat Muscle. NORMAN G. LEVINSKY, IAN TYSON, RONALD B. MILLER AND ARNOLD S. RELMAN 480
Differences in Absorption of the Various Fatty Acids Studied in Children with Steatorrhea. J. FERNANDES, J. H. VAN DE KAMER AND H. A. WEIJERS 488
Plasma Transport of Lipids and Lipoprotein Proteins in Dogs Treated with Triton WR-1339. ANGELO SCANU AND IRVINE H. PAGE 495
The Nature of the Aldosterone-stimulating Factor in Dog Kidneys. PATRICK J. MULROW, WILLIAM F. GANONG, GERALD CERA AND ALBERT KULJIAN 505
Regional Pulmonary Function Studied with Xenon^{133}. W. C. BALL, JR., P. B. STEWART, L. G. S. NEWSHAM AND D. V. BATES 519
Effect of Folic Acid Deficiency on Absorption of Co^{60}-Labeled Vitamin B_{12} by Rats. JENG M. HSU, VICTOR TANTENGCO AND BACON F. CHOW 532
The Metabolic Defect Responsible for Uric Acid Stone Formation. PHILIP H. HENNEMAN, STANLEY WALLACH AND ELEANOR F. DEMPSEY 537
Mechanism of Action of Thrombin on Platelets. HANS J. SCHMID, DUDLEY P. JACKSON AND C. LOCKARD CONLEY 543
Ascertaining Genetic Carriers of Hereditary Spherocytosis by Statistical Analysis of Multiple Laboratory Tests. ARCHIE A. MACKINNEY, JR., NEWTON E. MORTON, NECHAMA S. KOSOWER AND ROBERT F. SCHILLING 554
Studies of the Carrier State Following Infection with Group A. Streptococci. I. Effect of Climate. RICHARD M. KRAUSE, CHARLES H. RAMMELKAMP, JR., FLOYD W. DENNY, JR. LEWIS W. WANNAMAKER 568
Studies of the Carrier State Following Infection with Group A Streptococci. II. Infectivity of Streptococci Isolated during Acute Pharyngitis and during the Carrier State. RICHARD M. KRAUSE AND CHARLES H. RAMMELKAMP, JR. 575
The Nonhemoglobin Erythrocytic Proteins, Studied by Electrophoresis on Starch Gel. A. HAUT, G. R. TUDHOPE, G. E. CARTWRIGHT AND M. M. WINTROBE 579

The Characterization of Antibodies to Penicillin. Alan S. Josephson, Edward C. Franklin and Zoltan Ovary 588
Acute Changes in Renal Excretion of Water and Solute in Patients with Laennec's Cirrhosis, Induced by the Administration of the Pressor Amine, Metaraminol. Daniel L. Gornel, Ruben G. Lancestremere, Solomon Papper and Leah M. Lowenstein 594
Ventricular Function and Autonomic Nervous Activity during Cyclopropane Anesthesia in Man. Henry L. Price, Richard E. Jones, Stanley Deutsch and Harry W. Linde 604
An Analysis of the Mechanism of the Inhibitory Influence of K^+ on Renal H^+ Secretion. Floyd C. Rector, Jr., Harold Buttram and Donald W. Seldin 611
The Cause of Arterial Hypoxemia at Rest in Patients with "Alveolar-Capillary Block Syndrome." T. N. Finley, E. W. Swenson and J. H. Comroe, Jr. 618
Intramolecular Distribution of Uric Acid-N^{15} after Administration of Glycine-N^{15} and Ammonium-N^{15} Chloride to Gouty and Nongouty Subjects. A. B. Gutman, T. F. Yü, M. Adler and N. B. Javitt 623
The Effects of Phosphoproteins on Acid Balance in Normal Subjects. Edward J. Lennon, Jacob Lemann, Jr. and Arnold S. Relman 637
Studies of Protein Metabolism in Intestinal Epithelial Cells. Martin Lipkin and Henry Quastler 646
The Use of Insulin in the Production of L-Leucine-induced Hypoglycemia in Normal Dogs. G. Reaven and C. Lucas 654
Chromatographic Patterns of Individual Gastric Juice Specimens from Normal Human Subjects. Jack D. Welsh, Lois Russell and Stewart Wolf 660
Rheumatoid Factor, Complement, and Conglutinin Aberrations in Patients with Subacute Bacterial Endocarditis. Ralph C. Williams, Jr. and Henry G. Kunkel 666

Number 4, April 1962

Program of the Fifty-fourth Annual Meeting of the American society for Clinical Investigation to be held in Atlantic City, N. J., April 30, 1962 i
List of Technical Exhibits ii
Direct Evidence for the Oxidation of Free Fatty Acids by Peripheral Tissues. Samuel J. Friedberg and E. Harvey Estes, Jr. 677
Measurements of Endogenous Glucagon in Plasma and the Influence of Blood Glucose Concentration upon its Secretion. Roger H. Unger, Anna M. Eisentraut, Mary S. McCall and Leonard L. Madison 682
Phosphorylated Carbohydrate Intermediates of the Human Erythrocyte during Storage in Acid Citrate Dextrose. III. Effect of Incubation at 37° C with Inosine, Inosine plus Adenine, and Adenosine after Storage for 6, 10, 14, and 18 weeks. A. William Shaefer and Grant R. Bartlett 690
The Calorigenic Effects of Some Thyroxine Analogs on Intact Animals and on Excised Tissues. C. S. Pittman and S. B. Barker 696
The Similarity of Effects of Vasopressin, Adenosine-3′,5′-Phosphate (Cyclic AMP) and Theophylline on the Toad Bladder. Jack Orloff and Joseph S. Handler 702
The Teratogenic Induction of Hypertension. Arthur Grollman and Evelyn F. Grollman 710
The Effect of ACTH, Renin, Angiotensin II, and Various Precursors on Biosynthesis of Aldosterone by Adrenal Slices. Norman M. Kaplan and Frederic C. Bartter 715
Patterns of Human Myocardial Oxygen Extraction during Rest and Exercise. Joseph V. Messer, Richard J. Wagman, Herbert J. Levine, William A. Neill, Norman Krasnow and Richard Gorlin 725

The Fate of Injected Mucopolysaccharides. David Kaplan and Karl Meyer 743
Maturation of the Sulfobromophthalein Sodium-Glutathione Conjugating System in Rat Liver. Burton Combes and Geneva Sue Stakelum 750
The Role of the Endocrine Glands in Ketosis. II. Ketonemia following Insulin Hypoglycemia. Thomas T. Amatruda, Jr., Joan W. Chase and Frank L. Engel 758
Effects of Soybean Phosphatides on the Hemorrhagic Tendency due to Thrombocytopenia. Isaac Djerassi, Sidney Farber, Albert J. Roy and Hiroku Yoshimura 770
Effects of Sulfhydryl Inhibition on Red Blood Cells. I. Mechanism of Hemolysis. Harry S. Jacob and James H. Jandl 779
Renal Tubular Secretion and Reabsorption of Organic Bases in the Dog. Jorge Torretti, I. M. Weiner and Gilbert H. Mudge 793
Neutralizing Antibody to Polioviruses in Normal Human Urine. A. Martin Lerner, Jack S. Remington and Maxwell Finland 805
Protein Binding of Corticoids Studied by Gel Filtration. P. DeMoor, K. Heirwegh, J. F. Heremans and M. Declerck-Raskin 816
Origin of Lipid and Chloesterol in Experimental Thromboatherosclerosis. Meyer Friedman, Sanford O. Byers and Shirley St. George 828
Plasma Lipoprotein Metabolism in Perfused Rat Livers. I. Protein Synthesis and Entry into the Plasma. David E. Haft, Paul S. Roheim, Abraham White and Howard A. Eder 842
Evidence for a Direct Effect of Serum Sodium Concentration on Sodium Reabsorption. Carl Goldsmith, Floyd C. Rector, Jr. and Donald W. Seldin 850
Fatty Acid Synthesis from Acetate by Human Liver Homogenate Fractions. W. Bortz, S. Abraham, I. L. Chaikoff and W. E. Dozier 860
Pyrimidine Metabolism in Man. V. The Measurement *In Vivo* of the Biochemical Effect of Antineoplastic Agents in Animal and Human Subjects. Mitchell T. Rabkin, Elizabeth W. Frederick, Myron Lotz and Lloyd H. Smith, Jr 871
The Effects of Chronic Hepatic Venous Congestion on the Metabolism of *d,l*-Aldosterone, and *d*-Aldosterone. Carlos R. Ayers, James O. Davis, Ferol Lieberman, Charles C. J. Carpenter and Mones Berman 884
Pathogenesis of the Coagulation Defect Developing During Pathological Plasma Proteolytic ("Fibrinolytic") States. I. The Significance of Fibrinogen Proteolysis and Circulating Fibrinogen Breakdown Products. Anthony P. Fletcher, Norma Alkjaersig and Sol Sherry 896
Pathogenesis of the Coagulation Defect Developing During Pathological Plasma Proteolytic ("Fibrinolytic") States. II. The Significance, Mechanism and Consequences of Defective Fibrin Polymerization. Norman Alkjaersig, Anthony P. Fletcher and Sol Sherry 917
Pathogenesis of the Coagulation Defect Developing During Pathological Plasma Proteolytic ("Fibrinolytic") States. III. Demonstration of Abnormal Clot Structure by Electron Microscopy. Nils U. Bang, Anthony P. Fletcher, Norma Alkjaersig and Sol Sherry 935

Number 5, May 1962

The Effect of Posture on Pulmonary Capillary Blood Flow in Man. Arnold Naimark and Karlman Wasserman 949
Ethanol Metabolism and Production of Free Acetate in the Human Liver. Frank Lundquist, Niels Tygstrup, Kjeld Winkler, Kresten Mellemgaard and Sivert Munck-Petersen 955

The Metabolism of Desmosterol in Human Subjects during Triparanol Administration. DeWitt S. Goodman, Joel Avigan and Hilgard Wilson 962
Protein Binding of Pancreatic Proteolytic Enzymes. Bernard J. Haverback, Barbara Dyce, Hallie F. Bundy, Samuel K. Wirtschafter and Hugh A. Edmondson 972
Identification of 3β,21-Dihydroxy-5-pregnene-20-one Disulfate in Human Urine. Jorge R. Pasqualini and Max F. Jayle 981
Thyroxine Metabolism in Untreated and Treated Pancreatic Steatorrhea. John M. Hiss, Jr. and J. Thomas Dowling 988
The Thyroid Cytotoxic Autoantibody. I. J. Forbes, I. M. Roitt, Deborah Doniach and I. L. Solomon 996
The Influence of Dietary Protein on Plasma Lipids in Human Subjects. Gilbert A. Leveille, Howerde E. Sauberlich, Richard C. Powell and William T. Nunes 1007
Conjugation of Sulfobromophthalein in Newborn Infants and Children. M. F. Vest 1013
Equilibrium Dialysis Studies of the Binding of Thyroxine by Human Serum Albumin. Kenneth Sterling, Philip Rosen and Milton Tabachnick 1021
Measurement of Free Thyroxine Concentration in Human Serum. Kenneth Sterling and Alexander Hegedus 1031
Studies of the Dipyrrylmethene ("Fuscin") Pigments. III. The Variable Fate of Bilirubin Depending upon Conjugation and Other Factors. A. Sigrid Gilbersten and C. J. Watson 1041
The Effect of Exercise on Mean Left Ventricular Ejection Rate in Man. Herbert J. Levine, William A. Neill, Richard J. Wagman, Norman Krasnow and Richard Gorlin 1050
Immunoreactions Involving Platelets. VI. Reactions of Maternal Isoantibodies Responsible for Neonatal Purpura. Differentiation of a Second Platelet Antigen System. N. Raphael Shulman, Richard H. Aster, Howard A. Pearson and Merilyn C. Hiller 1059
Serum Proteins and Thyroxine—Protein Interaction in Early Human Fetuses. Mario Andreoli and Jacob Robbins 1070
Restoration of Water Diuresis in Addisonian Patients by Expansion of the Volume of Extracellular Fluid. John R. Gill, Jr., Donald S. Gann and Frederic C. Bartter 1078
Erythroid Cell Maturation and Hemoglobin Synthesis in Megaloblastic Anemia. David G. Nathan and Frank H. Gardner 1086
The Renal Excretion of Uric Acid in Gout. J. E. Seegmiller, Arthur I. Grayzel R. Rodney Howell and Candace Plato 1094
The Effects of Glucagon in Three Forms of Glycogen Storage Disease. Gerald T. Perkoff, Virgil J. Parker and Robert F. Hahn 1099
Antibody to Intrinsic Factor in Serum from Patients with Pernicious Anemia. Graham H. Jeffries, Donald W. Hoskins and Marvin H. Sleisenger 1106
An Intracellular Protein Intermediate for Hemoglobin Formation. William B. Greenough, III, Theodore Peters, Jr and E. Donnall Thomas 1116
Continuous Measurements of Intravascular Oxygen Tension in Normal Adults. Steve T. Koeff, M. U. Tsao, Attila Vadnay, Thomas O. Wilson and James L. Wilson 1125
Studies on the Identification of a Folate Compound of Human Serum. Victor Herbert, Allan R. Larrabee and John M. Buchanan 1134
The Effect of Acute Alkalosis on Renal Metabolism of Ammonia in Cirrhotics. Edward E. Owen, Malcolm P. Tyor and David Giordano 1139
Composition of the Renal Medulla during Water Diuresis. Howard Levitin, Alvin Goodman, Gilles Pigeon and Franklin H. Epstein 1145
The Relationship between Taurocholate Secretion Rate and Bile Production in the Unanesthetized Dog during Cholinergic Blockade and during Secretin Administration. Rudolf Preisig, Herbert L. Cooper and Henry O. Wheeler 1152

Concerning pH Gradients between the Extracellular Compartment and Fluids Bathing the Bone Mineral Surface and Their Relation to Calcium Ion Distribution. STEIN SCHARTUM AND GEORGE NICHOLS, JR. ... 1163
Estimation of Hepatic Blood Flow with Indocyanine Green. CARROLL M. LEEVY, CHARLES L. MENDENHALL, WILLIAM LESKO AND MACEO M. HOWARD ... 1169
Total Nondialyzable Solids (TNDS) in Human Urine. XIII. Immunological Detection of a Component Peculiar to Renal Calculous Matrix and to Urine of Calculous Patients. WILLIAM H. BOYCE, J. STANTON KING, JR. AND MARVEL L. FIELDEN ... 1180
Further Studies of the Gamma-related Proteins of Normal Urine. G. T. STEVENSON ... 1190

NUMBER 6, JUNE 1962

The Acceleration of Thrombus Formation by Certain Fatty Acids. WILLIAM E. CONNOR ... 1199
The Distribution of Iron Injected Intraperitoneally. Evidence of Serosal "Absorption" by the Small Intestine. PHAIROJANA THIRAYOTHIN AND WILLIAM H. CROSBY ... 1206
The Catecholamines in the Pulmonary Arterial Pressor Response to Acute Hypoxia. ROBERTA M. GOLDRING, GERARD M. TURINO, GERALD COHEN, A. GREGORY JAMESON, BERL G. BASS AND ALFRED P. FISHMAN ... 1211
Renal Potassium-wasting Induced by Vitamin D. THOMAS F. FERRIS, HOWARD LEVITIN, EMMANUEL T. PHILLIPS AND FRANKLIN H. EPSTEIN ... 1222
Some Effects of Human Growth Hormone on Renal Hemodynamics and on Tubular Phosphate Transport in Man. JACQUES CORVILAIN AND MAURICE ABRAMOW ... 1230
Unilateral Provoked Bronchial Asthma in Man. MÅNS ARBORELIUS, JR., BERTIL EKWALL, RAGNAR JERNÉRUS, GUNNAR LUNDIN AND LAWE SVANBERG ... 1236
The Effect of a Side-to-Side Portacaval Shunt on Hepatic Hemodynamics in Cirrhosis. TELFER B. REYNOLDS, WILLIAM P. MIKKELSEN, ALLAN G. REDEKER AND HARRY S. YAMAHIRO 1242
Erythrocyte Metabolism. V. Levels of Glycolytic Enzymes and Regulation of Glycolysis. ROBERT G. CHAPMAN, M. A. HENNESSEY, A. M. WALTERSDORPH, F. M. HUENNEKENS AND BEVERLY W. GABRIO ... 1249
Erythrocyte Metabolism. VI. Separation of Erythrocyte Enzymes from Hemoglobin. M. A. HENNESSEY, A. M. WALTERSDORPH, F. M. HUENNEKENS AND BEVERLY W. GABRIO 1257
Interrelations of Vitamin B_{12} and Folic Acid Metabolism: Folic Acid Clearance Studies. VICTOR HERBERT AND RALPH ZALUSKY ... 1263
Active Hageman Factor: A Plasma Lysokinase of the Human Fibrinolytic System. SOTIRIOS G. IATRIDIS AND JOHN H. FERGUSON ... 1277
Some Hormonal, Metabolic, and Nutritional Factors Influencing Lipid Peroxidation by Rat Adipose Tissue *In Vitro*. WILLIAM G. BLACKARD, MICHAEL F. BALL AND FRANK L. ENGEL ... 1288
Observations on the Acidifying Capacity of the Experimentally Diseased Kidney in the Dog. PETER A. F. MORRIN, NEAL S. BRICKER, S. W. KIME, JR. AND CLAIRE KLEIN ... 1297
Bicarbonate Reabsorption in the Dog with Experimental Renal Disease. PETER A. F. MORRIN, W. BURTON GEDNEY, LEONARD N. NEWMARK AND NEAL S. BRICKER ... 1303
Studies of I^{131}-Albumin Catabolism and Distribution in Normal Young Male Adults. WARREN L. BEEKEN, WADE VOLWILER, PATRICK D. GOLDSWORTHY, LARS E. GARBY, WILLIAM E. REYNOLDS, ROSE STOGSDILL AND RICHARD S. STEMLER ... 1312
Proceedings of the Fifty-Fourth Annual Meeting of the American Society for Clinical Investigation, Inc. Held in Atlantic City, N. J., April 30, 1962 ... 1334

CONTENTS

NUMBER 7, JULY 1962

The Formation of Macroglobulin Antibodies. I. Studies on Adult Humans. JOSEPH LOSPALLUTO, WILLIAM MILLER, JR., BARBARA DORWARD AND CHESTER W. FINK 1415
The Formation of Macroglobulin Antibodies. II. Studies on Neonatal Infants and Older Children. CHESTER W. FINK, WILLIAM E. MILLER, JR., BARBARA DORWARD AND JOSEPH LOSPALLUTO 1422
Measurement of the Cephalic and Cerebral Blood Flow Fractions of the Cardiac Output in Man. LEO A. SAPIRSTEIN 1429
Agar Gel Precipitin Analyses in Laboratory-acquired Tularemia. KENNETH L. VOSTI, MARTHA K. WARD AND W. D. TIGERTT 1436
Glucose Metabolism in Human Erythrocytes from Normal and Fava Bean-sensitive Subjects. G. FORNAINI, G. LEONCINI, L. LUZZATTO AND G. SEGNI 1446
The Separate Effects of Hyperparathyroidism, Hypercalcemia of Malignancy, Renal Failure, and Acidosis on the State of Calcium, Phosphate, and Other Ions in Plasma. MACKENZIE WALSER 1454
Urinary Urocanic Acid in Man: The Identification of Urocanic Acid and the Comparative Excretions of Urocanic Acid and N-Formiminoglutamic Acid after Oral Histidine in Patients with Liver Disease. A D. MERRITT, D. L. RUCKNAGEL, M. SILVERMAN AND R. C. GARDINER 1472
Regional Protection in Cancer Chemotherapy. I. Infusions of Thymidine into External Carotid Artery of Patients Receiving Systemic 5-Iodo-2′-Dioxyuridine. PAUL CALABRESI 1484
The Effect of Changes in Hydrogen Ion Concentration on the Pulmonary Circulation. EDWARD H. BERGOFSKY, DAVID E. LEHR AND ALFRED P. FISHMAN 1492
The Effect of Aortic Constriction on Aldosterone Secretion in Hypophysectomized Dogs. WILLIAM F. GANONG AND PATRICK J. MULROW 1503
The Antibody Response to Bacteriophage ϕX 174 in Newborn Premature Infants. J. W. UHR, J. DANCIS, E. C. FRANKLIN, M. S. FINKELSTEIN AND E. W. LEWIS 1509
Effects of Sulfhydryl Inhibition on Red Blood Cells. II. Studies *In Vivo*. HARRY S. JACOB AND JAMES H. JANDL 1514
Mechanisms of Impaired Water Excretion in Adrenal and Pituitary Insufficiency. III. The Effect of Extracellular or Plasma Volume Expansion, or Both, on the Impaired Diuresis. RALPH E. CUTLER, CHARLES R. KLEEMAN, JERRY KOPLOWITZ, MORTON H. MAXWELL AND J. THOMAS DOWLING 1524
Effect of Experimental Infarction, Manual Massage, and Electrical Defibrillation on Myocardial Lipoprotein Lipase Activity of Dogs. JACQUES I. KESSLER AND ELLIOT SENDEROFF 1531
The Effect of Blood Pressure on the Passage of Labeled Plasma Albumin into Canine Aortic Wall. LEROY E. DUNCAN, JR., JEROME CORNFIELD AND KATHERIN BUCK 1537
The Metabolism of Ring-labeled Orotic Acid in Man. S. M. WEISSMAN, A. Z. EISEN, H. FALLON, M. LEWIS AND M. KARON 1546
The Effects of Acute Hypoxia on the Systemic Venous and Arterial Systems and on Myocardial Contractile Force. RICHARD L. KAHLER, ALLAN GOLDBLATT AND EUGENE BRAUNWALD 1553
The Effect of Hypergammaglobulinemia on Albumin Metabolism in Hyperimmunized Rabbits Studied with Albumin-I^{131}. MARCUS A. ROTHSCHILD, MURRAY ORATZ, EDWARD C. FRANKLIN AND SIDNEY S. SCHREIBER 1564

NUMBER 8, AUGUST 1962

Pyrogenic and Inflammatory Properties of Certain Bile Acids in Man. ROBERT H. PALMER, PAUL B. GLICKMAN AND ATTALLAH KAPPAS 1573
The Effect of Norepinephrine on Cardiac Output, Arterial Blood Pressure, and Heart Rate in Dogs Treated with Chlorothiazide. JOHN W. ECKSTEIN, FRANCOIS M. ABBOUD AND SANTIAGO A. PEREDA 1578
Conversion of 17-Hydroxy-Pregnenolone to Cortisol by Normal and Hyperplastic Human Adrenal Slices. PATRICK J. MULROW, GEORGE L. COHN AND ALBERT KULJIAN 1584
Influence of Flow Properties of Blood Upon Viscosity-Hematocrit Relationships. ROE E. WELLS, JR. AND EDWARD W. MERRILL 1591
ACTH Levels in Plasma in Preoperative and Surgically Stressed Patients. COLLIN E. COOPER AND DON H. NELSON 1599
Humoral Stimulation of Adrenal Cortical Secretion. J. R. BLAIR-WEST, J. P. COGHLAN, D. A. DENTON, J. R. GODING, J. A. MUNRO, R. E. PETERSON AND MARELYN WINTOUR 1606
The Formation of Bilirubin from Hemoglobin *In Vivo*. J. DONALD OSTROW, JAMES H. JANDL AND RUDI SCHMID 1628
Studies on Human Proteinuria. II. Some Characteristics of the Gamma Globulins Excreted in Normal, Exercise, Postural, and Nephrotic Proteinuria. E. MCKAY AND R. J. SLATER 1638
Changes in the Basal Metabolic Rate of the Malnourished Infant and Their Relation to Body Composition. R. D. MONTGOMERY 1653
Cerebral Circulation and Metabolism During Thiopental Anesthesia and Hyperventilation in Man. ELLISON C. PIERCE, JR., CHRISTIAN J. LAMBERTSEN, STANLEY DEUTSCH, PATRICIA E. CHASE, HARRY W. LINDE, ROBERT D. DRIPPS AND HENRY L. PRICE 1664
The Metabolism of Aldosterone in Normal Subjects and in Patients with Hepatic Cirrhosis. W. S. COPPAGE, JR., D. P. ISLAND, A. E. COONER AND GRANT W. LIDDLE 1672
Further Characterization of the Human Serum D 1.063–1.21, α_1-Lipoprotein. ANGELO SCANU AND WALTER L. HUGHES 1681
URINARY 17-Ketosteroid Conjugates in Hirsutism. PIERRE MAUVAIS-JARVIS AND ETIENNE-EMILE BAULIEU 1690

NUMBER 9, SEPTEMBER 1962

Measurement of Small Quantities of Insulin-like Activity with Rat Adipose Tissue. III. Persistence of Serum Insulin-like Activity after Pancreatectomy. JURGEN STEINKE, ANNA SIREK, VILMA LAURIS, FRANCIS D. W. LUKENS AND ALBERT E. RENOLD 1699
Cardiovascular Lesions and Changes in Blood Coagulation and Fibrinolysis Associated with Diet-induced Lipemia in the Rat. SHAPUR NAIMI, ROBERT GOLDSTEIN, MARTIN M. NOTHMAN, GEORGE F. WILGRAM AND SAMUEL PROGER 1708
The Cytological Localization of ACTH in the Human Pituitary. A. LEZNOFF, J. FISHMAN, M. TALBOT, E. E. MCGARRY, J. C. BECK AND B. ROSE 1720
Oxidative Phosphorylation and Respiratory Control in Mitochondria from Normal, Adenomatous and Hyperplastic Thyroid Glands. ROGER W. TURKINGTON AND BARBARA NORDWIND 1725
Body Cholesterol Metabolism in Man. I. The Equilibration of Serum and Tissue Cholesterol. ARAM V. CHOBANIAN AND WILLIAM HOLLANDER 1732
Body Cholesterol Metabolism in Man. II. Measurement of the Body Cholesterol Miscible Pool and Turnover Rate. ARAM V. CHOBANIAN, BELTON A. BURROWS AND WILLIAM HOLLANDER 1738

The Distribution and Metabolism of Carbon-labeled Urea in Pregnant Primates. Donald L. Hutchinson, William T. Kelly, Emanuel A. Friedman and Albert A. Plentl... 1745
Water and Salt Absorption in the Human Colon. Ruven Levitan, John S. Fordtran, Belton A. Burrows and Franz J. Ingelfinger... 1754
The Epidemiology of Non-enteric *Escherichia Coli* Infections: Prevalence of Serological Groups. Marvin Turck and Robert G. Petersdorf... 1760
Studies on the Osmotic Fragility of Incubated Normal and Abnormal Erythrocytes. A. Haut, G. R. Tudhope, G. E. Cartwright and M. M. Wintrobe... 1766
A Case of Severe Hypermetabolism of Nonthyroid Origin with a Defect in the Maintenance of Mitochondrial Respiratory Control: a Correlated Clinical, Biochemical, and Morphological Study. Rolf Luft, Denis Ikkos, Genaro Palmieri, Lars Ernster and Bjorn Afzelius... 1776
Accelerated Turnover of Phosphoribosylpyrophosphate, a Purine Nucleotide Precursor, in Certain Gouty Subjects. Oliver W. Jones, Jr., Doris M. Ashton and James B. Wyngaarden... 1805

Number 10, October 1962

Isolation of Hyaluronateprotein from Human Synovial Fluid. John Sandson and David Hamerman... 1817
Pressure-Volume Characteristics of the Human Colon. Martin Lipkin, Thomas Almy, and Bertrand M. Bell... 1831
Total Exchangeable Potassium and Chloride and Total Body Water in Healthy Men of Varying Fat Content. E. A. Boling, W. L. Taylor, C. Entenman, and A. R. Behnke, Jr... 1840
On the Mechanism of Nitrate-induced Alkalosis. The Possible Role of Selective Chloride Depletion in Acid-Base Regulation. Paul F. Gulyassy, Charles van Ypersele de Strihou, and William B. Schwartz... 1850
Interrelation of Uric Acid and Ethanol Metabolism in Man. Charles S. Lieber, Don P. Jones, Monty S. Losowsky, and Charles S. Davidson... 1863
Kinetic Aspects of Cortisol-4-C^{14} Metabolism in a Patient after Subtotal Adrenalectomy for Cushing's Syndrome Associated with Bilateral Adrenal Hyperplasia. Norman I. Gold 1871
The Metabolism of Chylomicron Cholesterol Ester in the Rat. DeWitt S. Goodman... 1886
Iron Absorption. IV. The Absorption of Hemoglobin Iron. Adam Turnbull, Frans Cleton, and Clement A. Finch... 1897
Pulmonary Diffusing Capacity During Rest and Exercise. A Study of Normal Persons and Persons with Atrial Septal Defect, Pregnancy, and Pulmonary Disease. George N. Bedell and Richard W. Adams... 1908
Sites of Initial Removal of Chylomicron Triglyceride Fatty Acids from the Blood. P. J. Nestel, R. J. Havel, and A. Bezman... 1915
Renal Failure in Laennec's Cirrhosis. II. Simultaneous Determination of Cardiac Output and Renal Hemodynamics. Ruben G. Lancestremere, Paul L. Davidson, Laurence E. Earley, Frederick J. O'Brien, and Solomon Papper... 1922
Relationship Between Urinary Hydroxyproline and Growth. H. E. Jasin, C. W. Fink, W. Wise, and M. Ziff... 1928
A Human Lipoprotein Polymorphism. Baruch S. Blumberg, David Bernanke, and Anthony C. Allison... 1936
Depression of Phagocytosis by Solutes in Concentrations Found in the Kidney and Urine. Irwin Chernew and A. I. Braude... 1945

Number 11, November 1962

Impairment of Uric Acid Excretion in Gout. Willoughby Lathem and Gerald P. Rodnan 1955
Studies on Delayed Hypersensitivity in Hodgkin's Disease. Alan C. Aisenberg 1964
The Use of Lymph for the Measurement of Gas Tensions in Interstitial Fluid and Tissues. E. H. Bergofsky, J. H. Jacobson II, and A. P. Fishman 1971
The Effects of Autonomic Nervous System Inhibition on the Circulatory Response to Muscular Exercise. Richard L. Kahler, Thomas E. Gaffney, and Eugene Braunwald 1981
The Mechanism of Antidiuresis Associated with the Administration of Hydrochlorothiazide to Patients with Vasopressin-resistant Diabetes Insipidus. Laurence E. Earley and Jack Orloff 1988
Evaluation of Vaginal Smear, Serum Gonadotropin, Protein-bound Iodine, and Thyroxine-Binding as Measures of Placental Adequacy. J. T. Nicoloff, R. Nicoloff, and J. T. Dowling 1998
Isozymes of Lactic Dehydrogenase; Their Alterations in Arthritic Synovial Fluid and Sera. Elliot S. Vesell, Kirk C. Osterland, Alexander G. Bearn, and Henry G. Kunkel 2012
The Mechanism of the Increased Venous Pressure with Exercise in Congestive Heart Failure. J. Edwin Wood 2020
In Vitro Interconversion of 16-C^{14}-Estrone and 16-C^{14}-Estradiol-17β by Erythrocytes from Normal Subjects and from Subjects with a Deficiency of Red Cell Glucose-6-Phosphate Dehydrogenase Activity. Claude J. Migeon, Ono L. Lescure, William H. Zinkham, and James B. Sidbury, Jr. 2025
Rheology of Human Blood. Studies on the Flow of Fresh Venous Blood and of Citrated Blood through Tubing of Diameters between 0.09 and 0.20 Cm. Paul Dreizen 2036
Immunoglobulin Levels from the Newborn Period to Adulthood and in Immunoglobulin Deficiency States. Clark D. West, Richard Hong, and Nancy H. Holland 2054
Thyroxine Turnover in Euthyroid Man with Special Reference to Changes with Age. Robert I. Gregerman, George W. Gaffney, and Nathan W. Shock 2065
Myocardial Lactate and Pyruvate Metabolism. Norman Krasnow, William A. Neill, Joseph V. Messer, and Richard Gorlin 2075
The Adrenogenital Syndrome with Deficiency of 3β-Hydroxysteroid Dehydrogenase. Alfred M. Bongiovanni 2086

Number 12, December 1962

The Metabolic Clearance Rate of Aldosterone in Pregnant and Nonpregnant Subjects Estimated by Both Single-Injection and Constant-Infusion Methods. J. F. Tait, B. Little, S. A. S. Tait, and C. Flood 2093
The Effects of Salt Restriction on the Renal Concentrating Operation in Normal, Hydropenic Man. Richard M. Stein, Barrie H. Levitt, Marvin H. Goldstein, Jerome G. Porush, Gilbert M. Eisner, and Marvin F. Levitt 2101
Studies of the Acute Renal Effects of Hemolyzed Red Blood Cells in Dogs Including Estimations of Renal Blood Flow with Krypton^{85}. Martin Goldberg 2112
Serologic Studies of Proteolytic Fragments of Rabbit Agglutinating Antibodies. Hugh Fudenberg, William J. Mandy, and Alfred Nisonoff 2123
The *In Vitro* Metabolism of Desmosterol with Adrenal and Liver Preparations. DeWitt S. Goodman, Joel Avigan, and Hildegard Wilson 2135
Effects of Antibodies on Mitochondria. John S. Davis IV and Alfred Jay Bollet 2142
The Effect of Parathyroid Extract on Renal Tubular Calcium Reabsorption in the Dog. Sidney H. Widrow and Norman G. Levinsky 2151

Fate of Injected Plasmalogen in Rabbits. A. F. Robertson and W. E. M. Lands 2160
Cross-Reactions to Skin Homografts in Man. F. T. Rapaport, H. S. Lawrence, L. Thomas, J. M. Converse, W. S. Tillett, and J. H. Mulholland 2166
Forearm Metabolism in Obesity and Its Response to Intra-arterial Insulin. Characterization of Insulin Resistance and Evidence for Adaptive Hyperinsulinism. David Rabinowitz and Kenneth L. Zierler 2173
Red Cell, Plasma, and Blood Volume in Healthy Women Measured by Radiochromium Cell-Labeling and Hematocrit. E. Brown, J. Hopper, Jr., J. L. Hodges, Jr., B. Bradley, R. Wennesland, and H. Yamauchi 2182
Role of Free Fatty Acids in Forearm Metabolism in Man, Quantitated by Use of Insulin. David Rabinowitz and Kenneth L. Zierler 2191
Platelet Phosphatides. Their Fatty Acid and Aldehyde Composition and Activity in Different Clotting Systems. Aaron J. Marcus, Harris L. Ullman, Lenore B. Safier, and Harold S. Ballard 2198
Displacement of Thyroxine from Human Thyroxine-binding Globulin by Analogues of Hydantoin. Steric Aspects of the Thyroxine Binding Site. Jack H. Oppenheimer and Richard R. Tavernetti 2213
The Measurement of Cerebral Blood Flow by External Isotope Counting. Sheldon H. Steiner, Kwan Hsu, Leo Oliner, and Roy H. Behnke 2221
Chronic Unconjugated Hyperbilirubinemia without Overt Signs of Hemolysis in Adolescents and Adults. Irwin M. Arias 2233
Effects of Chronic Hypercapnia on Electrolyte and Acid-Base Equilibrium. III. Characteristics of the Adaptive and Recovery Process as Evaluated by Provision of Alkali. Charles van Ypersele de Strihou, Paul F. Gulyassy, and William B. Schwartz 2246
Heterogeneity of Fat Particles in Plasma during Alimentary Lipemia. Edwin L. Bierman, Enoch Gordis, and James T. Hamlin III 2254
Author Index to Volume 41 2261
Subject Index to Volume 41 2284
